Ulster Delegation Probably Will Be Recalled to London

Return to Belfast Not a Rupture of Negotiations, Says Secretary; Cabinet Members Are Not Issuing Any Statements to Public.

Belfast, July 19.—The return to Belfast of Sir James Craig, the Ulster Premier, and the members of his Cabinet who were with him in London in connection with the Irish peace move must not be taken as a rupture of the negotiations, it was declared to-day by Colonel Spender, secretary of the delegation, on its arrival here. It is thought, indeed, that the delegation will be recalled to London next week.

None of the Cabinet members would have anything to say for publication.

Eamonn de Valera is regarded by the Ulster Unionists as a visionary and the feeling in Unionist circles here is that no discussions among all the parties concerned in the Irish settlement will be possible until he considerably modifies his position.

When Sir James Craig met the "republican" leader in Dublin before the recent Irish parliamentary elections, the Ulster Premier is declared by Unionist circles to have heard a statement of the Irish republic idea and Unionists here expressed belief to-day that de Valera had expressed himself similarly in his interviews with Premier Lloyd George.

Approved.

The attitude of the Ulster Premier and his colleagues as expressed by Sir James in his statement made in London last night in which he declared Ulster was determined to maintain her present status, with her own Parliament, is cordially approved by the Belfast Unionists in general, as is indicated by their newspapers.

"There was never any other outcome of the negotiations possible," says "The Belfast News-Letter," "if the specially chosen Ulster counties are to have sacrificed us on the altar of a false peace. We shall have nothing to do with any settlement which infringes upon or diminishes the status of our parliament and we base that attitude on the same ground as de Valera makes his claim to self-determination."

Another View.

On the other hand, The Irish News, which voices the views of Joseph Devlin, Nationalist, says: "If the specially chosen Ulster counties are to self-determine themselves into a republic, why deny the claim of all Ulster to self-determine itself out of association with the others?"

"The claim insisted upon by Sir James Craig is on all fours with that put forward by the Southern States of the American Republic sixty years ago. That is a true and exact parallel."

Deadlock.

London, July 19.—The Irish negotiations appear to have reached a deadlock in so far as they concern a tripartite conference between Premier Lloyd George, Eamonn de Valera, Irish "republican" leader, and Sir James Craig, Premier of Ulster. This developed last night when Sir James Craig, as he departed for Belfast, issued a statement on the subject of "self-determination" which is interpreted to mean that he will not compromise on any matters pertaining to Ulster's political rights.

While the statement has made a deep impression upon political circles in many quarters, it is not accepted as final and hope is expressed that the negotiations for such a conference are not yet ended.

The Ulster Premier said he was returning home well satisfied with the efforts being made toward peace and that de Valera has broken his silence and cleared the ground by his statement to the press that he proposes to found his claim on recognition of the right of self-determination.

BOY TAMPERED WITH A RAILWAY SWITCH; SENTENCED

St. Hyacinthe, Que., July 18.—For interfering with a switch on the Grand Trunk Railway, George Jubinville, seventeen, was yesterday sentenced to three years' hard labor in the penitentiary.

Discussion of Racial Equality; Japan's Desire

Tokio, July 18.—It is intimated in responsible quarters here that Japan, assuming the initiative as the leading Far Eastern power, is likely to submit to the proposed conference on Far East questions the abandonment of extra-territoriality in China and also to ask the fixation of emigration rights to countries like Canada, Australia, New Zealand and Indo-China and in general raise the question of racial equality.

Differences.

Karuiwa, Japan, July 18.—(Associated Press.)—As there are many persons in the United States who criticize Japan as being wrong whatever she may do, so also are there many persons in Japan who think the United States is unreasonably inclined to thwart or obstruct our development in every way," said Yukio Ozaki, Liberal leader, in talking to-day on the political situation created by President Harding's call for a conference on disarmament and the Pacific situation.

At his summer residence, where he has been overwhelmed with letters of congratulation on the successful issue of his fight in favor of a reduction of armament, Mr. Ozaki discussed the present situation with

MANY TO LEAVE FOR CONVENTION

Lively Interest Taken in Island Boards of Trade Convention

Victoria will be well represented at the convention of the Associated Boards of Trade of Vancouver Island which will be held at Port Alberni on Friday. The meeting will be declared open by President George I. Warren at 7:30 o'clock in the evening, and a long list of important matters affecting the interests of Victoria and the Island will be dealt with.

President J. H. Beatty, of the Victoria Chamber of Commerce, B. C. Nicholas, vice-president, J. C. Penndray, President of the Victoria and Island Development Association, Joshua Kingham, President of the Associated Boards of Trade of British Columbia, Alderman A. E. Todd, vice-president and founder of the Pacific Northwest Tourist Association, Captain Gordon Scott, Managing-Secretary of the Victoria Chamber of Commerce, Arthur Linnham and H. J. Scott are among those who have already signified their intention of attending the convention.

Mayor Porter will probably decide to-day whether or not it will be possible to attend and a number of others are interested in the event to the extent of wishing to be present at the deliberations of the organization, which will be representative of every portion of Vancouver Island.

The party will leave in motor cars early Friday morning, and will return to the city Saturday.

FORTHCOMING PICNICS

July 22—Lodge, 53, Daughters of St. George, at Cadboro Bay.
July 23—St. John's Sunday School at Deep Bay.
July 24—St. Jude's Sunday School at Fowl Bay.
July 25—Lady Alton Chapter, at Observatory.
July 26—Primrose employees, at Whiff's Beach.
July 27—Princess Alexandra Lodge, Daughters and Maids of England, at Mount Douglas Park.
July 28—Gaelic Society, at Mt. Douglas.
July 29—Gyro Club, at Weir Farm, William Head.
July 30—Royal Arcanum, Cordova Bay.
July 31—C. P. R. Social Club excursion to Port Angeles.
July 32—Loyal Order of Moose, Deep Bay.
July 33—Esquimalt picnic for children, Goldstream.
July 34—Rotary Club, at Deep Bay.

REGINA CONVICTS ESCAPED TO-DAY

Three Got Away From the Jail There

Police Are Conducting Search For Them

Regina, July 19.—Breaking from their cells by a method yet unexplained by officials and overpowering the guard on duty, William Simms, three prisoners broke from the Regina jail at an early hour to-day. The escaped men are Roy Hobbs, serving two years less one day for theft, the sentence to expire October 19, 1922, and a third, serving three terms running consecutively for indecent assault, theft and jail-breaking, the sentence to expire January 6, 1924, and F. J. Keller, serving six months for theft.

Best Guard.

Following the break from the cells, the convicts crept up behind the guard, threw a blanket over his head and beat him into submission. His cries for help were muffled by the folds of the blanket. They then proceeded to bind the guard, hand and foot with ropes, rifled his pockets for the jail keys and walked out to liberty. Though painfully bruised, Simms was not badly injured.

When free the men commandeered an automobile from a nearby farm but soon abandoned it.

Police forces in all parts of the Province have been notified and a search is being conducted for the three escaped prisoners.

CANADIAN ARMY BEING REDUCED TO 3,600 MEN

Ottawa, July 19.—(Canadian Press.)—Canada is reducing the strength of her permanent force by ten per cent, it was officially announced by the Militia Department to-day. This step, taken on the ground of economy, will mean a maximum of 3,600 officers and men as against 4,000 as hitherto.

Commanding officers were instructed to select those for discharge who will suffer the least hardship.

TO SINK FORMER GERMAN WARSHIP U.S. Planes Will Bomb Dred-nought Ostfriesland

Newport News, Va., July 18.—The former German dreadnought Ostfriesland is scheduled to-morrow for navy and army planes, when a bombing test will be carried out in the Atlantic off the Virginia Capes. This is the first of the series of tests of the new U.S. battleships which will be observed by numerous warships of the United States fleet.

The former German cruiser Frankfurt is scheduled to remain until to-morrow, when the results of the attack will be observed by numerous warships of the United States fleet. The former German cruiser Frankfurt is scheduled to remain until to-morrow, when the results of the attack will be observed by numerous warships of the United States fleet.

FAREWELL SAID TO RETIRING GOVERNOR

Duke of Devonshire Honored in Quebec

Quebec, July 19.—In proposing a toast to the Duke of Devonshire at a farewell banquet tendered to the retiring Governor-General last night, Hon. L. A. Taschereau, Premier of Quebec, said, "this province desired to be known that she yielded to none of the sister provinces in loyalty toward the sovereign, and in the strongest will to maintain intact the Canadian Confederation."

"She wants to be a land of liberty where all races and all creeds may live side by side in peace, harmony and good will," he said.

Pleased.

The departing Governor-General, responding, said he would always remember his sojourn in Canada with great satisfaction.

After describing the peculiar political structure of the British Empire, four of whose self-governing communities controlled the greatest empty spaces that remained for the settlement of white men, the Duke of Devonshire paid tribute to his successor, and requested that he be given a Canadian welcome.

Success.

"I am convinced the conference will be able to clear up these mutual misunderstandings to the greatest good of the powers concerned. Remember that an American invitation to Japan to enter into the comity of nations has been."

LLOYD GEORGE LOSES SUPPORT OF ARCHER SHEA

London, July 19.—(Canadian Associated Press.)—Colonel Archer Shea, Coalition-Unionist member for the Finsbury division of London, has withdrawn his support from the Lloyd George Government, he asserts, disapproving of the Cabinet's policy of negotiating with Eamonn de Valera, Irish "republican" leader, who is a fugitive from justice.

Municipalities Reduce Land Value Assessments, But Tax Income Grows

The assessed value of taxable land in British Columbia has been greatly cut down during the last year, the total of tax arrears has been reduced to nearly half what it was two years ago, according to the statistical report of the Inspector of Municipalities for the year ending December 31, which was presented to the Hon. J. W. de B. Farris, Attorney-General, and made public by him to-day. Receipts from taxes and gross expenditure have both increased.

The assessed value of taxable land shows a reduction for the year 1920 of \$14,361,763.

The debenture debt of the municipalities at December 31, 1919, stood at \$34,741,615. On December 31, 1920, it was \$36,097,910, an increase of \$1,356,295. The debenture issues certified during this period were \$2,149,057.35.

The total arrears of taxes on December 31, 1920, was \$3,248,443. At the end of 1919 it was \$12,994,121, and at the end of 1918, \$14,931,216—the highest point on record.

The lands now held by municipalities and which were taken over through tax sale proceedings, increased during 1920 from \$3,335,871 to \$5,247,748.

Receipts from taxes during 1920 were \$15,467,562 and the total receipts, including receipts from public utilities, \$21,711,112. The figures for the preceding year were \$14,555,731 for tax receipts and \$18,875,692 from public utilities.

Sinking Fund Shortage Grows.

Gross expenditure increased from \$17,696,022 to \$20,686,963. Condition of sinking funds in some respects shows an improvement, according to the report, but in the total the shortage is greater than at the close of the preceding year. At the close of 1919 the sinking fund shortage amounted to \$5,366,003 and at the close of 1920 to \$5,512,425.

CROP OUTLOOK DECLARED FAIR

Prairie Conditions Described by Winnipeg Paper

Winnipeg, July 19.—"After due allowance is made for all difficulties, there still remains a fair prospect of at least an average crop from the major portion of the acreage seeded and very ample returns in some sections, more especially the northern parts of all three prairie provinces," states a crop report issued by The Manitoba Free Press to-day.

During the three weeks which have elapsed since the last report was published the whole situation on the prairies has changed, and to a considerable extent for the worse in Manitoba and Saskatchewan, while in the drier areas of Southern Alberta there has been some improvement.

The report states that there has been hovering in the air for weeks has so far not developed to any considerable extent and may, states the report, with favorable weather, turn now on do little or no damage.

Rain.

A feature of the reports received by the paper is the contradictory conditions with reference to moisture which prevail in all three prairie provinces. Replies to a question as to what kind of weather is now needed run all the way from "wet and cool" to "dry and hot," and often these contradictory reports are from districts not ten miles apart, showing that conditions are very irregular.

Phenomenon.

"He remarked at Edinburgh on the difficulty which the world finds in comprehending this political phenomenon of unity in a diversity of links that are not fetters because they are freely induced by those whom they bind. There are many reasons for the marvel, and one of them that is not negligible and may fittingly be mentioned on such an occasion, is this: the consistency with which leaders emerge in the great Dominions who can voice the ideals of their peoples with firmness and dignity."

(Concluded on page 14.)

Meighen Returns to Conference in London

London, July 19.—(By Grattan O'Leary, Staff Correspondent of the Canadian Press.)—Back from Scotland, where he had conferred upon him the freedom of the city of Edinburgh and the degree of Doctor of Laws from Edinburgh University, Premier Meighen to-day plunged into the final work of the conference of the Prime Ministers of the Empire, in an effort to catch the liner Empress of Britain, which will sail for Canada next Thursday.

In an address in Scotland, Premier Meighen, after an eloquent tribute to the Scots as a race, re-affirmed the principles and the policies which he laid down at the conference and to-day The Manchester Guardian, the leading British Liberal organ, says:

"Mr. Meighen, who the other day received the freedom of the city of Edinburgh and her University, Mr. Meighen is in the authentic line of Canadian Prime Ministers when he is seen in such a position, as Sir Robert Borden have united in sincere devotion the idea of British unity with firm insistence on the right of the Dominions to develop on their own and diverse lines."

SURPLUS WHEAT OF CANADA WILL FIND MARKET

Ottawa, July 19.—Dr. Magill, secretary of the Winnipeg Grain Exchange, who is here, in the opinion of the exchange, will be no difficulty in marketing the prairie wheat crop despite the United States tariff. Dr. Magill intimated that English buyers are already in the market for vast quantities of Canadian grain, and that the United States will have to buy large quantities in any event.

WONDERFUL SUCCESS IN LOCAL COLLEGE

Surprisingly High Percentage of Students Pass Tests

In sharp contrast to the poor showing of High School students in their matriculation examinations are the figures compiled at the City School Board offices this morning to show the results achieved by the students of Victoria College in their matriculation and final examinations. The school authorities are delighted with these results which are far above the average expected, and which appear to demonstrate conclusively the ability of the college to teach university work. The Trustees feel that the work of the college during its first year of existence has vindicated the Board's decision to establish the institution.

In the second and last year of the college work ten full undergraduates and three partial students attended and there was not one failure among them. Two of the undergraduates achieved first class honors and one received second class honors, while six passed. One passed conditionally and all three partial students passed. Thus among the undergraduates 90 per cent of the students were completely successful and 10 per cent passed conditionally, and will write a supplemental examination. When it is recalled that only 30 per cent of the High School students who wrote the matriculation examinations were completely successful it is seen that the college results are really surprising. Among the partial students in the second year there was a hundred per cent success.

Few Failures.

In the first college year fifty-four full undergraduates and seven partial students or a total of sixty-one students attended. Of these five undergraduates received first class honors, nineteen received second class honors, eight passed and fifteen passed conditionally. There were only seven failures among the undergraduates, while all seven partial students passed. Among the undergraduates, (Concluded on page 14.)

PEOPLE IN SOUTH CHINA ARE NEAR CANNIBALISM

Pekin, July 18.—(Associated Press.)—The National Commission for Famine Prevention to-day received a report from the province of Kwei Chow, in the southwestern part of China, to the effect that famine conditions in that province are such that unless immediate relief is given the people in thirty districts will be forced to become cannibals.

The committee also considered certain aspects of the question of nationality, and a resolution was passed commending to the favorable consideration of the Governments of the Dominions and India the principles of the proposals put forth by Rt. Hon. Edward Shortt, the Home Secretary, in connection with the acquisition of British nationality by persons of British descent of the second and subsequent generations born abroad, subject to registration of birth and renewal of registration as subjects on reaching majority.

Patents.

The committee also discussed the subject of the subject of patents. A resolution was passed recommending that a conference of representatives of the patent offices of the Dominions be held in London at an early date to consider the practicability of instituting a system of granting patents which should be valid throughout the Empire.

Wireless.

At a conference committee sitting yesterday the subject of wireless was discussed. Statements were read by the British Postmaster-General, and a resolution passed recommending that a decision be reached by wireless telegraphy, whether by Government or private enterprise, would be investigated, and reports furnished the Governments of the Dominions and India.

Harding Invited to Pay Visit to Prince Rupert

Prince Rupert, July 19.—An invitation is being extended by the city through United States Consul Wakefield to President Harding to visit Prince Rupert in the event of the American executive making a trip to Alaska.

FEDERAL ELECTION OUTLOOK DISCUSSED

Contest Within Year Is Not Expected

Alberta Result Commented on in Ottawa

Ottawa, July 19.—(Canadian Press.)—The defeat of the Stewart Government in Alberta caused little genuine surprise here, the chief comment, where any is heard, being on the size of the United Farmers' representation in the Legislature. Liberal and Government circles alike here had conceded Premier Stewart little hope of winning, but the election was being closely watched as indicating the strength of the farmer movement in the Prairie Provinces. The result as indicated by the returns published here, leaves no doubt that the farmer movement in Alberta has lost little of its power.

Indirect Effect.

The voting in Alberta probably will have an indirect effect on the forthcoming election in the other provinces, in regard to dissolution and an election, which are certain to follow the return of Premier Meighen to Canada. It is admitted in Government circles that there are two schools of opinion in regard to dissolution, and an early election. Many of the Government's friends on the outside, however, are in favor of an election, and it is said some members of the Cabinet themselves are inclined to this view. However, among the members of Parliament supporting the Meighen Government there has during the past year or so been plenty of evidence that their desire was to continue for another year without a contest.

Redistribution.

The western members have been pressing for redistribution before an election, and it is generally accepted that the results in the three western provincial elections will not lessen their pressure.

While the decision will rest chiefly with Premier Meighen, who is expected to sail for Canada, during the week, there is no serious discussion of the matter when he reaches Ottawa. Generally speaking, it can be said that the expectations are that the Government will decide to carry on through another year until the census has been taken and redistribution is provided on the increased population.

The Contest.

The United Farmers of Alberta fought the battle with the Liberal Government of Hon. Charles Stewart on the broad issue of the alleged iniquities of the old party system of politics rather than on the record or policies of the Stewart administration, and the poll on Tuesday recorded their sweeping victory. The United Farmers are prepared to accept the responsibilities of success and the Stewart Government, in reply to the Farmers, in reply to the question: "Who will be the new Premier of Alberta?"

Mr. Wood.

H. H. Wood is the elected head of the United Farmers in Alberta in their existence as a business organization, but it does not follow that he will become Premier of the province. There is a feeling, which finds expression in many quarters, that Mr. Wood has been responsible more than any other man for the development of the U. F. A. along the lines which it has taken and that for this reason there rests upon him a moral responsibility to continue in the official forefront of the movement in its new political status.

(Concluded on page 15.)

EXPENDITURES OF U. S. DECREASE \$9,000,000,000

Washington, July 19.—The total Government expenditures during the fiscal year just ended dropped off by \$9,000,000,000 as compared with last year, representing a decrease of \$1,887,000,000 in ordinary disbursements and a reduction of \$7,446,000,000 in payments on the public debt, according to the annual statement issued to-day by the Treasury.

Representation.

"We have long had representative government, but it has been government of the people by their own representatives just as autocratic, not so tyrannical, as the typical absolute monarchy. What the people want now is self-government through their representatives. This will be impossible as long as the elected representatives operate the political machinery by which they themselves are elected. The people of Alberta have spoken in no uncertain terms against politician representation. This does not apply alone to the Farmers. It applies with equal force to Labor, and perhaps with still greater force to the elected Independents."

"Political partisan statesmanship in Alberta is a complete wreck, with hardly enough debris left to show where the wreck occurred. All elected."

(Concluded on page 15.)

Mayor Invites American Fleet to Come to City

Mayor R. J. Porter this morning tendered an invitation to the United States Pacific Fleet to pay a visit to Victoria during its present operations in northern waters. The Mayor wrote to Admiral Eberle, who commands the Fleet, stating that the citizens of Victoria would extend a hearty welcome to his officers and men and that the city would feel honored to receive them here.

"If the fleet can come here we shall give the sailors a royal welcome and a good time," the Mayor stated when announcing that he was sending an invitation to Admiral Eberle. "The welcome to the Americans would be a pleasing ceremony and a mark of the cordial relations which prevail between us and our kindred to the south of the boundary. I sincerely hope that it will be possible for the Fleet to visit us."

P. A. Rayner, Secretary of the Victoria Branch of the Navy League of Canada, will deliver the Mayor's invitation to Admiral Eberle personally, the Mayor stated.

The Mayor also has invited the Pacific Coast Port Authorities to

Elected Farmers in Alberta Will Meet And Choose Leader

Name of New Premier Not Known Yet; Thirty-Nine Farmers In Newly-Elected Legislature and Twenty-One Liberals and Others.

Calgary, July 19.—The latest election summary gives the standing of the parties in Alberta as follows: United Farmers, 39; Liberals, 14; Labor, 4; Independents, 4.

Calgary, July 19.—(Canadian Press.)—Probably within one week the United Farmer members-elect of the Alberta Legislature will meet to choose a political leader, who in turn will be invited to undertake the formation of the first Farmer Government in this province. Within a fortnight from this time it is expected that Premier Stewart will have handed over the administration to a new Premier and a new Cabinet. There is good authority for these statements, although no action has been taken officially at this time to put into effect the vote of yesterday.

ALBERTA FOLLOWS ONTARIO'S LEAD

Second Province to Have Farmer Ministers

Calgary, July 19.—(Canadian Press.)—The Farmers are in the saddle in Alberta, the second province of Canada to send to its Legislature a majority group representing the organized agricultural industry. That was the outcome of the provincial general election held yesterday.

H. W. Wood, president of the United Farmers of Alberta, who while he led the Farmer organization was not a candidate for the Legislature, is to spend the next few days in Calgary, and early action is probable in the way of seeking a conference of the Farmers-elect.

The Contest.

The United Farmers of Alberta fought the battle with the Liberal Government of Hon. Charles Stewart on the broad issue of the alleged iniquities of the old party system of politics rather than on the record or policies of the Stewart administration, and the poll on Tuesday recorded their sweeping victory. The United Farmers are prepared to accept the responsibilities of success and the Stewart Government, in reply to the question: "Who will be the new Premier of Alberta?"

Mr. Wood.

H. H. Wood is the elected head of the United Farmers in Alberta in their existence as a business organization, but it does not follow that he will become Premier of the province. There is a feeling, which finds expression in many quarters, that Mr. Wood has been responsible more than any other man for the development of the U. F. A. along the lines which it has taken and that for this reason there rests upon him a moral responsibility to continue in the official forefront of the movement in its new political status.

(Concluded on page 15.)

STATEMENT BY WOOD IN CALGARY

Alberta Farmers Have Burden of Administration

Calgary, July 19.—"Until a conference of the elected United Farmer members has been held, no one will be in a position to accept or reject a call to the 'premiership,'" said H. W. Wood, president of the United Farmers of Alberta, in reply to the question: "Who will be the new Premier of Alberta?"

"I have received no instructions from the elected members as to any action they wish to take regarding calling a conference," Mr. Wood continued, "but I have no doubt they will very soon take their steps to meet the situation."

"Inevitable."

Discussing the result of the election, he said: "This result has been inevitable ever since the calling of the snap election. The farmers have assumed a very grave responsibility, but there is no reason why they can not meet that responsibility and make good and I believe they will."

Representation.

"We have long had representative government, but it has been government of the people by their own representatives just as autocratic, not so tyrannical, as the typical absolute monarchy. What the people want now is self-government through their representatives. This will be impossible as long as the elected representatives operate the political machinery by which they themselves are elected. The people of Alberta have spoken in no uncertain terms against politician representation. This does not apply alone to the Farmers. It applies with equal force to Labor, and perhaps with still greater force to the elected Independents."

"Political partisan statesmanship in Alberta is a complete wreck, with hardly enough debris left to show where the wreck occurred. All elected."

NO BRITISH-U. S. DEBT CANCELLATION

Washington, July 19.—A letter from former President Wilson to Premier Lloyd George, declaring that the United States could not consider proposals to cancel or exchange Great Britain's indebtedness to this nation, was placed in the Congressional Record yesterday.

Mr. Wilson's letter, dated in October, 1920, said that "suggestions looking to cancellation or exchange" had been made to the then President in Paris. The communication was apparently the reply to the British Minister's letter made public last week at a Senate Finance Committee hearing.

Mr. Wilson's letter said the position of the United States had not changed, and "it is not prepared to consent to the remission of any part of the debts of Great Britain to the United States."

Mr. Wilson, it appeared, urged Mr. Lloyd George to fund the debt, saying if that was not done embarrassment of the Treasury would necessitate

steps to collect unpaid interest. Expressing "confident expectation of the payment in due course," Mr. Wilson added:

"It is felt that the funding of these demand obligations of the British Government will do more to strengthen the friendly relations between the United States and Great Britain than any other course dealing with the same."

\$50,000 FIRE IN CALIFORNIA TOWN

Fresno, Cal., July 19.—Fire, believed to have originated in the Raymond Hotel, at Raymond, Mariposa County, when an oil stove overturned, destroyed the hotel, two adjacent residences and a warehouse yesterday, according to advices received here. The loss is estimated at \$50,000.

The flames threatened for a time to wipe out the entire town and the heroic work of the firemen prevented the fire from spreading.

The blaze was finally extinguished at 5 o'clock in the afternoon.

With the city already faced with a possible ice famine by reason of the mild winter and the recent heat wave, an acute situation has been aggravated by the fire. The ice destroyed in the warehouse was the natural product, and the last the company had available.

EARNINGS OF C. N. R.

Toronto, July 19.—Canadian National Railway earnings for the week ending July 14 were \$1,943,164; for the corresponding week last year, \$2,009,992. For the period January 1 to the date earnings were \$14,260,429; for the same period last year, \$14,494,728.

INDIAN CHIEF SEEN IN PARIS Big Hawk Appeared in Native Costume

Paris, July 18.—Even the most blasé Parisians received a new sensation to-day, when there descended from a limousine in front of the famous Cafe de la Paix, which occupies a vantage point on the Grand Boulevard, one "Big Hawk," grand sachem of the Sisseton National.

The American Indian chief was in the full regalia which goes with his rank, and which is admirably adapted to the tropical heat of a Paris Summer afternoon, consisting of a head-dress of eight feathers, each ornamented with a large feather in which he himself or a forefather had participated, moccasins and a breech-clout.

It might also be mentioned that he wore a coat, but it was a coat of paint.

The women sitting on the cafe terrace were especially enthusiastic, crying out, "Oh, look at the handsome redskin."

Pressed with questions about his visit to France, the chief, who is a graduate of Carlisle, and speaks fluent French, explained he was here to give instructions to the Boy Scouts at camps at Quentilly, Corcy and Villers.

He was decorated with the French Croix de Guerre and the Legion of Honour, and the American D.S.C., and his only complaint about the costume in which he appeared is that he can not pin on the ribbons of his decorations.

VIROL, LIMITED
A Record in Sales: Increasing Use by Public Health Authorities.

The twenty-first annual general meeting of Virol Ltd. was held in London on June 16, 1921.

Mr. Bertram S. Straus, J.P. (the chairman of the company), presiding, said the sales for the period under review again show a substantial increase and constitute a record in the history of the company.

The increased demand in connection with public health work and the extent to which Virol is used in infant welfare work afford a striking indication of the high opinion held by medical men of the value of the preparation and of its influence during the age of growth.

More than 100,000 bottles of Virol are regularly purchased by Virol, which indicates what an important part our preparation is playing in the development of the coming generation.

In this connection very important investigations conducted by the Bioc Chemical Laboratory of the University of Cambridge to determine whether the various vitamins, which the report by the Medical Research Committee on the Food and Nutrition Survey had shown to be present in the articles from which Virol is prepared, were present also in the preparation as sold to the public.

Results of these experiments, the report of which was issued in October last, show definitely that the vitamins which are known to be essential to the well-being of man and animals, and which are also considered to play an important part in the maintenance of resistance to certain infectious diseases and in freedom from rickets, are present in Virol as manufactured and sold to the public.

Strong Financial Position
The gross profit is £141,930, as against £124,855.

Success of Virolax
Last year I called your attention to the very satisfactory evidence we had received from the medical profession as to the value of Virolax as a nutrient and palatable laxative.

Owing to the very high emulsifying power of Virol, its combination with liquid paraffin in Virolax has entirely overcome the practical objections applying to the use of unemulsified paraffin. A still more important factor is the administration in Virolax of a valuable nutrient in combination with an intestinal lubricant which inhibits undue bacterial growth.

New Factory
According to contract, the new factory at Park Royal should have been completed in December last, but owing to difficulties experienced in all building operations during the past year, the factory is only now approaching completion.

The Virol Research Laboratories
The Virol Research Laboratories for pathological work were founded to afford facilities to the medical profession for obtaining for even the poorest patients the benefit of these methods for accurate diagnosis of disease which modern research has placed at their disposal.

The administration of Virolax is exclusively in the hands of the medical superintendent, supported by a staff of qualified medical men, and these facilities are greatly appreciated by the increasing number of medical men and public health authorities.

The laboratories are also fulfilling a national function in the prevention of disease and the promotion of public health. Independent research into the cause of certain diseases is also being conducted in the laboratories and has made good progress during the year.

SUPPLY OF ICE REDUCED BY FIRE

Hamilton, July 19.—500 tons of ice were destroyed and damage estimated at \$100,000 was caused by a fire that broke out on the waterfront here at noon yesterday and completely razed the ice house owned by Dwyer & Heir, the plant of the Cummer Ice & Coal Co., and a boat building plant owned by Robertson Bros.

Only the heroic work of the firemen prevented the Royal Hamilton Yacht Club from falling a prey to the flames. The blaze was finally extinguished at 5 o'clock in the afternoon.

With the city already faced with a possible ice famine by reason of the mild winter and the recent heat wave, an acute situation has been aggravated by the fire. The ice destroyed in the warehouse was the natural product, and the last the company had available.

EARNINGS OF C. N. R.

Toronto, July 19.—Canadian National Railway earnings for the week ending July 14 were \$1,943,164; for the corresponding week last year, \$2,009,992. For the period January 1 to the date earnings were \$14,260,429; for the same period last year, \$14,494,728.

MASONS TO ERECT WAR MEMORIAL

Paris, July 18.—An American sculptor, Cecil Howard, has been chosen to design the Masonic monument to be one of the crowning features of the battlefield at Verdun. It will be situated on the crest of the famous hill of Douaumont.

Mr. Howard, who is a brother of Kathleen Howard, the American contralto at the Metropolitan Opera, has studied in France for fifteen years and is the youngest foreigner admitted as a full sociétaire of the Paris Salon, his Salon exhibits having always attracted wide notice among French connoisseurs.

The Douaumont monument is to be erected by subscriptions from Masons in the Allied countries, and it will be dedicated in September of next year.

The monument, which is to be of heroic size, will consist of a heavy obelisk in stone containing a statue of a woman holding a branch of acacia and backed by a radiating sun. The woman and the acacia are symbols of Masonry, representing truth and peace.

The monument is to bear an inscription, dedicating it to all Masons killed in the war and also is intended to represent the Masonic ideal of universal peace and brotherhood for internationalism as opposed to militarism.

TIZ FOR TENDER, SORE, TIRED FEET

No more sore, burning, swollen, tender, tired feet. No more shoe tightness. No more sharp, stinging pains from corns, callouses, bunions or raw spots.

No matter what you have tried without relief, just use Tiz. Tiz is the only remedy that draws out the poisonous exudations that cause swollen, burning, tender feet. Tiz ends your foot troubles. Your shoes will not seem tight and your feet will never hurt or be sore or swollen.

Get a small box of Tiz at any drug or department store and get instant relief. Wear smaller shoes. A whole year's foot comfort guaranteed for a few cents.

NATIONAL MOTOR FUEL IN FRANCE

Paris, July 19.—In an effort to free France from dependence on the United States and Great Britain in the matter of gasoline and kerosene are concerned, the Chamber of Deputies as one of its last acts before adjourning authorized the production of "carburent national" (national motor fuel), which is to be a substitute for gasoline and entirely producible in France.

Painstaking experiments have been in progress a long time in the Ministry's laboratories and have resulted in a fuel based on ethyl alcohol combined with a small quantity of gasoline. An engineer, Rene Faber, has at last succeeded in producing alcohol at a cost which is not prohibitive.

That is, alcohol combined with gasoline, then treated with acid and redistilled, which gives a product very cheap with much or greater power than gasoline and which has the added advantage of not forming carbon in the motor.

The action of the Chamber follows a fact noted by every owner of a motor car that though the price of gasoline has declined as a result of removal of governmental restrictions on sale and distribution, the price to the consumer has declined so little that the motive liquid is still distinctly a luxury.

AMERICANS SINK EX-GERMAN CRUISER

Norfolk, Va., July 19.—Bombing aircraft destroyed the former German light cruiser Frankfurt late yesterday sixty miles east of the Virginia Capes after an all-day attack. A bomb which failed to hit the target, but exploded in the water close by the starboard side near the bow sent the cruiser down.

ECZEMA
You are not alone in suffering from this skin disease. It is a common ailment. It is not a disease of the blood. It is a disease of the skin. It is not a disease of the nerves. It is a disease of the skin. It is not a disease of the system. It is a disease of the skin. It is not a disease of the body. It is a disease of the skin. It is not a disease of the mind. It is a disease of the skin. It is not a disease of the soul. It is a disease of the skin. It is not a disease of the spirit. It is a disease of the skin. It is not a disease of the flesh. It is a disease of the skin. It is not a disease of the bone. It is a disease of the skin. It is not a disease of the marrow. It is a disease of the skin. It is not a disease of the joint. It is a disease of the skin. It is not a disease of the muscle. It is a disease of the skin. It is not a disease of the tendon. It is a disease of the skin. It is not a disease of the ligament. at the Theatre

DOMINION

Anna Jansen, a dancing girl, gives up her stage career to become the common law wife of Alastair De Vries. He soon tires of her and pays attention to a chorus girl. Anna pleads with him not to leave her and he throws her brutally from him. That night, when she sees De Vries dining with her rival in the Oriental cafe, she shoots and kills him. All this is testified to by witnesses at her trial with which the picture opens.

Escaping to Tahiti where she obtains employment as dancer in an amusement resort, she lives for five years under the haunting fear of arrest for murder. Thomas McCarthy, a detective, discovers her retreat and takes her in custody. He is unable to embark with his prisoner on a regular steamer bound for San Francisco and they take passage on another vessel. This steamer is wrecked by fire and explosion and all on board with the exception of Anna and McCarthy are lost. McCarthy's life is saved by Anna and fastened to a spar, they reach an island.

McCarthy is determined to bring his prisoner to trial despite the fact that he grows to love her. She shoots him in the shoulder one day, but his devotion to his sworn duty never languishes. After some years on the island they espouse each other and both are happy until a steamer is sighted. McCarthy refuses to light the signal fire because he wishes to save Anna, but she starts a fire and their rescue follows.

Anna is tried and convicted of manslaughter by a jury. The judge sentences her to the custody of Detective McCarthy with instructions to him to return to the island with his wife and prisoner. This they agree to do and both are happy.

Two years of South Polar exploration is crowded into "The Bottom of the World," the Sir Ernest Shackleton expedition motion picture, which is also shown at the Dominion this week.

PRINCESS

To-morrow night at the Princess Theatre the play will be a musical comedy-drama entitled "Step Lively" by George Cohan. The musical numbers will be all that could be desired, and the play is one with a splendid plot and the "kick" that has made all the Cohan plays famous is not lacking.

Miss Page as the Post mistress, Lee Jaxon as her errand brother and Jim Coots as her "faithful beau" and Byron Aldern as his "hated rival," all make a combination hard to beat. Wm. Campbell as Harrigan has another comedy part and a dandy musical number. Arthur Elton, Edna Mullally, Miss Lisle and Miss Dooley will all be seen in characters well suited to them. Also Mr. Thom, who is a Victoria boy, will have a good part and has been chosen to replace Mr. Fadden and will now be stage manager for the Mildred Page Players.

The cash prize to-morrow night will be as usual, \$5 for the nearest guess in the grown-up's contest, to decide how many words were spoken by Lee Jaxon last week.

Don't forget Captain Kidd's treasure chest, \$75 if you can guess the contents of the chest which is in Peden Bros.' window on Yates Street this week. Get "busy, little folks; what do you think is in the chest?"

COLUMBIA

"Just a Wife," which opened at the Columbia Theatre yesterday for a three-day engagement, proved a photoplay without a "villain" or "villainess." The plot is based upon the "Eternal Triangle" with two women using all their wits to win the love of the man they both desire, and yet both fight so fairly and there is so much justification for every act of each of them that neither of the contestants ever loses the sympathy of the audience. It might also be said that the husband, over whom all the fuss is made, is a regular "he man" and never sinks in the estimation of the audience. All the situations seem perfectly logical—situations which could conceivably develop in any community, and as a consequence, there is no need for deep-dyed villainy. This one feature of "Just a Wife" is enough to make the photoplay appeal to that great and growing class of picture patrons who find themselves "fed up" on cheap sensation-

NOW SHOWING AT DOMINION

Scene from the Paramount Picture "The Woman God Changed" A Cosmopolitan Production

ROYAL VICTORIA

"I ain't much good at this here preachin' stuff; but if it ain't too late to help the sky pilot, we would sure appreciate it."

With this genuine, heart-felt sentiment expressed by one of the cowboys, whose knowledge of religion had dated with the recent arrival of the young minister in Canadian ranch belt, King Vidor, director of "The Sky Pilot," which opened its engagement at the Royal Victoria Theatre yesterday, smashes home the characteristic human note that has served to distinguish the motion picture productions of that young director-genius from among the other present-day releases.

Nor was this stroke on the part of Vidor an easy matter to implant. In the story of "The Sky Pilot," which is a faithful adaptation from the book by Ralph Connor, a series of smashing climaxes, would naturally serve to lead the average director away from the path of human-interest and into the realms of the spectacular.

Perhaps the most remarkable fact about this picture is Vidor's accomplishment of putting his gripping human story across, and at the same time sacrificing no dramatic interest and suspense. Undoubtedly, in his filming of the cattle stampede he has scored a success that will be hard to duplicate.

This stampede is undoubtedly one of the most rousing bits of action enacted before a motion picture camera. Picture 4,000 head of panic-stricken cattle in a mad rush toward the helpless figure of the little ranch girl, who has been thrown from her horse. Visualize the tense moment that comes when the Sky Pilot realizes the girl's predicament and determines to risk her, ostentatiously to reach her before the thundering cattle have crushed the life from her body, and carry her out of harm's way. The race begins; the cattle coming nearer, the Sky Pilot spurring his horse into a frenzied race. As the Pilot reaches her, he finds it is too late to carry her off to one side. There is but one method of escape. He must stand over the girl and attempt to steer the cattle to the side. Teeth clinched, nerves tingling, his arms fighting the beasts to either side, the Pilot does it nobly. Until the last steer in the herd has been brushed aside, the stampede is in a tremor.

Featured in "The Sky Pilot" are John Bowers, who takes the title role; David Butler, who plays the part of the ranch foreman, and Colleen Moore, who takes the role of Gwen, the leading feminine part. The picture is released by the Associated First National Pictures organization and that company has just right to feel proud of this attraction. The picture will be shown at the Royal throughout this week.

WHITE ELK WEARS CHIEF'S FEATHERS

Crowds Appreciate Work of Himself and Princess at Variety

Crowds at the Variety Theatre yesterday afternoon and night applauded White Elk, chief of the Oklahoma Cherokee Indians, so enthusiastically that he was forced to make several additional appearances to sing in his tenor voice. He came out arrayed in his chief's feathered headdress.

White Elk delivered the prologue to the movie play, "Before the White Man Came," which concerns the love affair of "Big Elk" and "Kawena," daughter of the chief of another tribe. The full cast is composed of full-blooded Indians. It is the first moving picture without a white man or white woman in it. It is an accurate story of the days when the red man was monarch of the plains.

The chief's wife, who is the last princess of the Kiamash tribe, appears with him. Her native costume is composed of 23 pounds of beads, is 200 years old, and is valued at \$5,000. She will wear this on Thursday at the theatre. The other costume she has been wearing in all her appearances is worth \$2,000. She recites one of her own poems, "Long Before the White Man Came."

The scalp bag the chief wears has been in his family for 100 years. It is embroidered with wampum and Indian money. His cuffs are encrusted with hieroglyphics of council and friendship. The design of the vest is interpretative of the spiritual sign of the tribe. Over his shoulders he wears a hand-woven blanket of a marvelous color scheme.

White Elk was a physician and surgeon on an American ship during the recent war. In the Bay of Biscay he was one of the casualties, having six teeth broken and his hands damaged. The Princess also was a trained nurse. She took part in fighting the flu epidemic. White Elk pointed out in his address the duties of a nurse in the United States. He was unable to practice his profession for remuneration.

INSECTIVOROUS

BIRDS VALUABLE

Tremendous Destruction of Infestations by Bird Life

It may appear startling, but it is a fact that if all the insect pests ravaging our crops could be suppressed, and all the plant and tree diseases eradicated, and the increased revenue derived by the country thereby could be turned into the Dominion Treasury, there would need be no question of taxation. This idea is largely substantiated by the fact set forth by the entomologist of the Dominion Department of Agriculture that a conservative estimate of the annual loss in Canada to field, orchard and garden crops due to destructive insects is upwards of \$200,000,000. As our authority says: "To this huge devastation must be added the enormous annual destruction caused by forest insects, stored product insects, etc."

Upon this statement the entomologist founds a well-sustained argument in favor of the protection of insectivorous birds, such as the prairie horned-lark, the robin, the somewhat despised crow, the red-breasted Nuthatch, the Western Tanager, the Myrtle Warbler, the Chickadee, grouse, gulls, and many other kinds. In the state of Iowa it has been estimated that tree sparrows annually devour something like 895 tons of weeds seeds. Speaking of the robin, an investigator in Toronto found that a single bird kept in confinement ate 165 cutworms in one day. Another authority states that a brood of prairie horned-larks consumed 400 cutworms in one day.

This authority, namely, Mr. Norman Criddle, Dominion Entomologist in Manitoba, declares that six crows are capable of consuming three bushels of grasshoppers in one season. It is recorded that in certain places in Manitoba areas of growing grain have been saved from destruction by the pestilent grasshopper owing to the presence of large flocks of guilts. In light of these facts it is surprising to be informed by the Dominion Entomologist, Mr. Arthur Gibson, to wit, that the importance of protecting our useful birds is becoming more and more recognized, especially by farmers and fruit-growers.

STEADY PROGRESS

AT LAKE HATCHERY

Cowichan Lake Hatchery Superintendent Is in City

The ponds at Cowichan Lake hatchery are now stocked with 70,000 spring salmon, 5,000 eastern brook trout, 3,900 Atlantic salmon, 173 albino salmon, and 42 Kamloops trout. J. H. Castley, superintendent of the hatchery, is in the city with Mrs. Castley, registered at the Dominion Hotel en route to Vancouver.

He states that the Department is preparing to increase the water supply for the ponds, which is now secured by a dam in the creek north of the river. In that case a larger quantity can be kept at the hatchery. With the exception of the albinos, which are four years old, and the Kamloops trout, which are two years old, all the stocks this season are yearlings.

One of the cost important improvements to aid the hatchery is the proposal for removing the greater part of the Cowichan River falls, to permit the fish to come up river at practically all seasons, of the year from sea water. The removal of the obstruction would be of great value, he says.

Mr. Castley says the Eastern brook trout have become thoroughly acclimatized at Cowichan Lake, the present supply in the ponds being now in the third generation, and are really doing well there.

The present superintendent has been in the hatchery for the past nine and a half years and has been in charge of the premises.

LITTLE CHANGE

IN EMPLOYMENT

Small Number of Industries Show Advances

Employment reports for the week ended June 11 were received by Dominion headquarters of the Employment Service of Canada from 5,228 firms employing 61,455 workers. For the previous week these identical firms had reported total payrolls of 615,328, the difference representing a decrease of about one-third of one per cent. The upward trend which had been resumed the previous week was again checked. Comparing the figures for the week under review with the base week of January 17, 1920 the number of employees in the week was 88.1. For the previous week it was 87.8 and for the corresponding week (June 12) of 1920 it was 107.8.

Some Increases

Fifteen industrial groups recorded increases over the previous week aggregating less than 3,000 employees, while fifteen reported aggregate reductions of about 4,500. The outstanding feature of the week was a continued reduction in employment by firms in the iron and steel industries, chiefly affecting Ontario and experienced mainly by vehicle agriculture implements and food products plants. Losses in the iron and steel industry were 1,000. Other outstanding contractions occurred in logging and water transportation. The Ontario-Quebec district absorbed practically all of the losses in logging; British Columbia showed slight increases in this industry and the Maritime district experienced little change. Upper St. Lawrence ports showed the greatest decreases in water transportation, with Pacific ports next in order. Contractions of smaller magnitude occurred in pulp and paper, shared by Ontario and Quebec; in railway transportation next in order. The Maritime Provinces; in non-ferrous metal products, confined to Ontario and chiefly in brass, bronze and copper products; in fish canning and packing on the East coast. The largest expansions in industry were registered in railway construction and maintenance, lumber and lumber products, building construction and coal mining.

The bulk of the gains in railway construction exhibited by the Western provinces; the expansion in lumber was shared by British Columbia, Nova Scotia and Quebec. Ontario absorbed the bulk of the increases in building construction, including some expansion in public highways. Quebec and Nova Scotia showed only nominal increases, and the Prairie provinces showed the smallest gains of all. British Columbia reported activity in this industry second to that of Ontario. Coal mining gains were made principally in Alberta and British Columbia with Nova Scotia exhibiting little change. In the Maritime district the fishing season practically ended, accounting for the slump in the fish canning industry.

Payroll Contractions

Compared with the corresponding week of last year the majority of industries showed contractions in payroll, exceptions being telephone communication, water transportation and hotel services. The most unfavorable comparisons in this respect were shown by iron and steel products and textiles. Compared with the preceding week, the Maritime and Prairie districts and British Columbia showed favorable balances, all on a small scale. But the Ontario-Quebec district exhibited contractions more than offsetting this favorable balance. In the Maritime district the principal losses were in fish canning and packing, and in the iron and steel industry. The index number of employment for this district was 80.9 as compared to 112.0 for the same week in 1920. The Ontario-Quebec district experienced its heaviest losses in the iron and steel and logging industries. Agricultural implements, building construction and plants and crude products firms were chiefly affected. Supplementary losses of some importance took place in water transportation, chiefly at Upper St. Lawrence ports, and in pulp and paper products in both provinces. Minor reductions occurred in brass, bronze and copper plants in Ontario, textile firms in Quebec, and in railway construction in Quebec.

Textile Industries

The branches of the textile industry chiefly affected were garment and personal furnishings and headwear; at the same time there were offsetting gains in thread, yarn and cloth. The largest single increase in this district occurred in building construction, due to increased activity in Ontario. The only other noticeable gain was in tobacco products in Quebec. The index number for this district stood at 85.8 as against 102.2 for the same week in 1920. In the Western provinces the only item of importance was the gain in railway construction, distributed through all three provinces. Nominal increases occurred in building construction, chiefly in Manitoba, and in local transportation, chiefly electric railways in Manitoba. The only noticeable decreases in employment were in railway transportation and iron and steel products. The index number of employment was 91.3 as compared with 107.3 for this week in 1920. In British Columbia the outstanding gains were in lumber mills and railway construction, supplemented by smaller increases in coal mining and logging. The only contraction of any importance took place in water transportation. The index number for this province was 95.0 as compared to 107.0 at the same time in 1920.

Montreal, July 19.—Canadian Pacific Railway earnings for the week ended July 14, 1920, were \$2,307,000, a decrease of \$457,000.

THE RESULT IN ALBERTA.

The striking demonstration of strength given by the Progressives, composed mainly of the farmers, in the recent Federal by-election in Medicine Hat, in a measure prepared close observers for the result of the general election in Alberta yesterday. It is quite evident that as far as the majority of the voters are concerned the two old-time parties have ceased to be political factors in that Province. Out of a total of 61 seats in the Legislature the United Farmers have captured 38, the Liberals 15, Labor 4 and Independents 4. The Conservatives failed to secure a seat and as their representation in Manitoba and Saskatchewan is negligible, they have become practically extinct as an organized party in the three Prairie Provinces.

A remarkable feature of the election yesterday was the large number of United Farmer members elected in proportion to the aggregate of their candidates in the field, only six failing to carry their districts. Another noteworthy circumstance was the fact that they entered the fight without a leader in the sense that the other elements had leadership. The head of the United Farmers of Alberta in the business aspect of that organization is H. W. Wood, and although he is believed to have initiated the participation of the United Farmers in the election it is questionable if he will leave his present post to become the head of the farmer Government. It is probable some other choice will be made.

The appeal of the successful element was based upon general dissatisfaction with old-line Party Government, rather than upon any material differences in regard to policies and principles, and their movement, therefore, is very much in the nature of a class insurrection against what has been the established order. Class movements of this kind, however, cannot exist long in the very nature of their aims and purposes, and the life of the United Farmers as a political entity will be short-lived unless they broaden their activities into a general progressive movement which regards the interest of the urban, as well as the rural, population of the Province. This is what the Drury Government has done in Ontario, and in a wider application is the course adopted by the party under the leadership of Mr. Crerar in the national political field.

The Liberal Government, which under various leaders has held office in Alberta continuously since the organization of the Province in 1905, leaves office with an unvarying good record, and Premier Stewart has nothing with which to reproach himself. If his Government had been composed of archangels the result would not have been different.

THE CONFERENCES.

As the conferences between the British Prime Minister and the respective leaders of political thought in Ireland progress the by-play towards which public attention is being directed continues to emphasize the fact that complete Dominion home rule is about the only solution that will bring peace to Erin's Isle. The Sinn Fein leader emphatically states that his sole demand is the self-determination of the Irish Nation which goes very much further than the authority of the Irish Act and comes into definite conflict with the policy of Sir James Craig and his Ulster followers. The Prime Minister of the Northern Parliament points to the result of the recent election and the decisive defeat of the policy of non-partition. His position would be unassailable if he represented the majority of the people of the country. But he does not. At the same time he will be supported by a large volume of public opinion in his determination to adhere to a what-we-have-held point of view.

While Canada may not furnish a complete parallel the fundamental differences that divided Quebec from the rest of the Dominion are somewhat similar to those which prevent co-operation in Ireland. But the Irish question differs by reason of the fact that the British Government cannot extend home rule to the South—although it may represent the majority—and invest it with Dominion authority and expect an already established Parliament in the North to play second fiddle in the face of Sinn Fein's rejection of the Act now on the statute books. Thus the main difficulty is encountered at the division of authority. The South has an undoubted majority but it has been badly Ulster in the minority but has taken the privileges conferred by the Act. These are the obvious facts which point to Dominion home rule as the nearest cut to a final settlement of the whole business. Nevertheless, as soon as this point is reached the question of Federal status looms up and suggests to Westminster an Irish army and an Irish navy with the history of the last three or four years converted into a suspicion as to whether Sinn Fein political domination could be trusted with weapons of attack. Why not? Where is the enemy? What has an Ireland with as much autonomy as South Africa to gain by getting on its hind legs as soon as it begins to experience the political freedom for which it has battled? At least the experiment would seem to be worth the while. Establish a central Parliament and let the Northern and Southern Legislatures give it a trial. Ulster might lose the dignity with which the recent function at Belfast endowed it. But what of that if an amicable understanding with the South would promote an Ireland as united as it could expect to be under the religious and racial cleavages of the moment?

Assuming that Great Britain were involved in a war and the Dominion Government in Ireland refused to supply its quota in contrast with the response of the rest of the self-governing parts of the Empire in 1914 is it reasonable to suppose that there would be no Irishmen in the armies of the Empire? Not at all. And if trouble did break out in Ireland what would be easier than to blockade her? In the final analysis the worst development would be a return to the conditions that existed before the conversations which are now in progress. But it is reasonable to suppose that once the Irish people are allowed to conduct their own affairs and realize the benefits of peaceful intercourse—not to mention the advantage of the world's goodwill—the risk of danger will be considerably reduced if not removed altogether.

SPLITTING STRAWS.

Nobody in this country will display any sign of alarm over the fact that the Imperial Conference has decided to waive the discussion of naval questions until after the Washington gathering shall have concluded its business. Nor is it likely that the taxpayers of Great Britain will object to continue to bear most of the cost for a little longer in the hope that the whole world is about to discover the extent of the folly to which it has been committed for so long. And if the powers already invited to consult with President Harding at Washington agree to put an end to the armament race and reduce the fighting organizations already in existence there is not one country in the world so mad as to attempt to set up a new "defence" plan as a protest against non-participation in the deliberations. Neither Germany, Russia, nor China need be taken seriously into account as far as the conference is concerned. Belgium will not worry as long as she sees the menace to world peace effectively removed. No objections are likely to come from Switzerland or the Republic of San Marino. And what else actually matters as long as the two great English-speaking nations—together with France and Italy and Japan agree to do what the majority of the peoples of the world earnestly demand?

"SOME" SCHEME.

Pacific Coast readers of Old Country newspapers may have observed the notice of an application to stay the advertisement of a petition to wind-up a company which has for one of its objects "the foundation of a large city on the Pacific Coast of Canada whereby an immediate profit of £10,000,000 was assured." It appears that the company was formed in 1911 and that the promoters were two men named Newman and Cooke. The late Earl Crawford found money to support the enterprise and quite an array of titled gentlemen—with a few Lords and one or two Marquises thrown in—came into the venture at a later stage. The first hint of trouble came in the Fall three years ago when Sir Basil Zaharoff complained of the manner in which the names of prominent shareholders were being used. However, the Court dismissed the application after a confession from the company's counsel that the concern had no realizable assets. If the venture in question had been of a more recent date one might have thought that the fable of a Vancouver Island as a second Monte Carlo had taken root in the inventive minds of a couple of bubble company promoters. As it is it looks as if the fertile imagination of Messrs. Newman and Cooke has been responsible for the separation of a few thousand pounds from an aristocratic group whose bank balances have been developed in advance of their understanding of conditions and opportunities "on the Pacific Coast of Canada."

NOTE AND COMMENT

During the discussion on the Cabaret by-law last night one of the aldermen suggested that frequenters of these places of entertainment should be proud to have their names duly registered—and "besides wives want to know where their husbands are." But there was no rejoinder about the need of registers for pink teas and bunnings because "the husbands want to know where their wives are."

According to a recent dispatch from London Herr Hugo Stinnes, the German capitalist of varied interests, will reach England this week for the purpose of discussing with a group of financiers ways and means of organizing a huge syndicate to trade with Russia. There is an element of humor underlying the object of the Stinnes visit in that it is a confession that Russia above all countries hesitates to trade with Germany because Lenin and Company do not consider her able to meet her obligations without outside backing.

Warm supporters of the League of Nations are wondering how it will be possible to present its work in behalf of world disarmament to the Washington Conference in view of the fact that the Government of the United States does not even answer communications relative to the progress the League is making in general. The answer would seem to be that if the Washington Conference succeeds in convincing the principal powers and the most influential members of the League that all should begin to do away with the dangerous weapons with which wars are fought the disarmament portion of that body's activities will be very much simplified.

"The stars incline, but do not compel."

HOROSCOPE

TUESDAY, JULY 19, 1921.

(Copyright, 1921, by The McClure Newspaper Syndicate.)

Contending forces mark this day, according to astrology. Jupiter and Saturn are in benefic aspect, but Neptune, Mars and Uranus are adverse. Early in the morning trade should be satisfactory. Bankers and merchants should make the most of the opportunities of the early hours. Bankers will meet with heavy responsibilities, for Mars menaces them with distant problems. This is not a favorable day for persons who exercise authority delegated to them by the people, for they will be subjected to severe and even unjust criticism. Political leaders are warned of disaffection and disloyalty in their own parties and among their own friends. This will be apparent even to the highest officials in the Federal Government. Mars and Uranus are in an aspect indicating that world war veterans are to receive benefits, but they will be subject to a way of the stars that will cause discontent and dissatisfaction. Farmers should benefit by this glare.

tary aspect, which seems to indicate good prices for their products. Neptune and Uranus are read as giving warning that there will be much wrong thinking at this time and danger.

cus propaganda will be widely circulated to encourage mental strabismus. Persons whose birthdate it is should avoid litigation or dissensions of any sort in the coming year. Changes of business will not be fortunate. Children born on this day may be excitable and quick tempered, for they will combine with Gemini traits and characteristics of Cancer subjects, since they are on the cusp. In business they are likely to be very successful.

KING'S PRIZE BISLEY CONTEST

Bisley Camp, July 19.—(Canadian Associated Press)—Forty marksmen competing for the last seventeen places of those eligible to enter the second stage of the King's Prize face the targets to-day. Only the highest 300 in the stage will be permitted to shoot in the second stage and Canada is sure of seventeen representatives in the next stage, with the chance that Sergeant Steele of Guelph, who scored 88, may also get in as a result of the shoot-off. This is probably a record number of Canadians surviving the first stage. The big team match for the MacKinnon Challenge Cup will be shot this afternoon and it is expected that there will be teams entered representing Canada, England, Scotland, Ireland and Wales. The teams are twelve men each, fifteen shots a man at 300 and 1,000 yards.

MAYO CAMP

Mayo is a busy camp this year and there is also activity at Keeno Hill. The river bank is crowded with freight and new buildings are going up. All the houses at Mayo are occupied and more will have to be built. A motor car stage is to be put into service between Mayo and Keeno Hill. This will be a great improvement over the last year's service. At present it is possible to drive as far as Hoffman's, 28 miles out of Mayo.

DISCUSSION OF RACIAL EQUALITY: JAPAN'S DESIRE

(Continued from page 1.)

over sixty years ago was the chief cause for the birth of the new Japan. I earnestly believe the American invitation this time for disarmament may become the chief cause of the birth of a new era for modern Japan."

Great Benefit.

Mr. Ozaki said there were many differences of opinion as to the scope of the conference, but that if it could limit naval competition the whole world would be benefited and a amicable settlement of all other questions necessarily would follow. On the contrary if naval limitation should fail to be brought about, it would be almost impossible to come to a solution of the other problems, said the Liberal leader.

Mr. Ozaki possibly will be a delegate to the Washington conference.

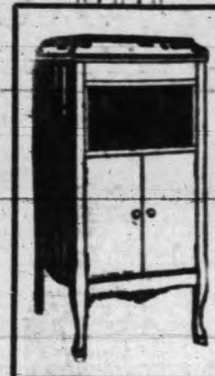

Asahi's Prediction.

Tokio, July 18.—The Asahi to-day, in a special editorial concerning the proposed Washington conference, predicts that the Japanese Government, after the receipt of the Washington Government's reply to Japan's request for a definition of the scope of the "Far Eastern questions," will expound its views to the following effect:

"1. Supposing the Washington conference considers questions like Tap and Shanghai? The conference will partake of the nature of the Versailles conference in that it will again discuss matters already decided at Versailles."

Special Problems.
2. Both Tap and Shanghai are special problems affecting the countries concerned and they should be regarded as questions limited to the particular states interested. If questions of such a nature are submitted the conference is liable, in the opinion of the Japanese, to bring about an undesirable result by unnecessarily stimulating the mind of the public in the countries, giving rise to prejudice and suspicions between nations and offer opportunities for all kinds of intrigue and other unjust practices calculated to estrange nations."

DOMINION Tires

The Luxury of Motoring

is epitomized in "DOMINION ROYAL CORD" Tires. Easy riding becomes a happy reality when your car is equipped with these master achievements in tire building.

Bumps and jolts that make ordinary roads so uncomfortable are absorbed by these wonderful tires.

Why? Because of two "Dominion Royal Cord" features.

First—the marvellous "Royal Cord" construction, which consists of thousands upon thousands of slender, pliant cords—layer upon layer—yet each cord independent of all others—making a tire-structure so yielding and resilient as to take up the shock of ordinary road obstructions.

Second—these tires require less air-pressure than fabric tires. The lower air-pressure, flexibility and enormous strength of "DOMINION ROYAL CORDS" assure freedom from punctures, blow outs and the usual tire troubles.

These same features, which combine safety, comfort and luxury in motoring, also assure such greater mileage that "DOMINION ROYAL CORDS" are easily the most economical tires that can be put on any car, particularly the larger, heavier cars.

But the Dominion Rubber System does not stop with these master achievements in tire building. Dominion Tires are made for every car owner and in different treads for different conditions of work and roads—each tread the best that Canada's premier rubber organization can produce.

No matter what size or make of car you drive, you will find the right tires for service and mileage in Dominion Tires.

The Best Dealers throughout Canada carry Dominion Tires, Dominion Inner Tubes and Dominion Tire Accessories.

Social Personal

A very pretty wedding of local interest was solemnized at St. John's Church on Saturday evening when the Rev. P. A. E. Chadwick united in marriage Dulcibelle Florence, daughter of the late Mr. Randall Moore of Doncaster, Yorkshire, England, and Mrs. E. Moore of Victoria, and the late Mrs. De Gruchy of Devonport, England.

The bridegroom, Mr. Charles Alfred De Gruchy, of the late Mrs. De Gruchy of Devonport, joined in the capacity of C. P. O. during the ceremony. The church was prettily decorated by the ladies of St. John's choir of which Miss Moore has been a member for several years. Mr. Ivor service was fully choral. Mrs. Ivor Bracke presiding at the organ for Mr. G. Jennings Burnett. The bride entered the church in a dress of pink and white, looking lovely in a dress of embroidered white satin draped with beaded Georgette the veil being arranged with orange blossom and white heather. She carried a shower bouquet of pink roses. Her only bridesmaid was a niece of the bridegroom, Miss Mary Purdy sang "O Promise Me." A reception was held at the home of Mr. and Mrs. J. K. Loach, gathered to offer their congratulations, the hostess receiving the guests in a gown of old lace, over heliotrope silk. During the evening Miss Clare Powell gave some of her delightful musical readings, and Miss Collingridge read a poem. The bridegroom, Mr. De Gruchy, and Miss Moore finishing the programme with a duet. The happy pair were the recipients of many useful gifts including a beautiful shower given by the ladies of St. John's choir, who were entertained by the bridegroom at her home 1823 Chamber Street on the evening of June 25. Mr. and Mrs. De Gruchy left for Vancouver by the midnight boat, the bride looking charming in her traveling suit of French grey gabardine braided with navy blue and navy taffeta hat. After a short honeymoon they will return to this city where they will make their home.

To-morrow afternoon the gardens at the residence of Mrs. J. D. Carlin, 1941 Collinson Street, will be open to the public for the benefit of the Women's League. The proceeds will be divided between the Society of St. Vincent de Paul and the Ladies Aid. The many attractions will include stalls for the sale of home-made goods, ice cream and candy. Afternoon tea will be served from 3 till 4 o'clock and supper, including cold meat and salad, from 6 o'clock onward. At 8 o'clock there will be dancing on the lawn to the strains of the orchestra organized by Miss Neary.

Miss E. M. Hall, Miss Emily Lotze, Miss May Lotze, S. M. Marty and Mrs. J. M. Curtis, of New York City; Mrs. H. L. Rasmussen, of Port Angeles; Mrs. A. L. Burdick, of Port Angeles; Mrs. M. V. Wain, of Port Angeles; Mrs. Cramer, of Seattle; Mr. and Mrs. D. Russell, of Los Angeles; Miss J. Shannon, of Missoula, Montana; J. C. Fraser, of Eureka, Cal.; Miss Agnes Flanagan, of Los Angeles; Mrs. May Flanagan, of Los Angeles; Mrs. May Langley, of Hingham, Wash., are registered at the Strathcona Hotel.

A number of motor parties are making the Dominion Hotel their headquarters at present. Among them are Mr. and Mrs. L. V. Raymond, of Raymond, Wash.; H. S. Gaymond, of Port Angeles; Mr. and Mrs. J. S. Johnston, Mrs. Johnston, Dr. C. F. Kuhn and Mrs. Kuhn, of Port Townsend; Mrs. N. W. McCormack, of Seattle; Mrs. J. E. Jenkins, of Eugene, Ore.; John B. Jardine and Mrs. Jardine, George Wolfenden and Mrs. Wolfenden, of New Westminster; Dr. and Mrs. Davidson, Mr. Motherwell and Col. and Mrs. Collard, of Qualicum Beach.

New arrivals at the Dominion Hotel include Miss Ethel H. Pudifin, of Plympton, Devon; Mrs. Mary Godfrey and Miss Godfrey, of Los Angeles; J. C. Joyce and Mrs. Joyce, of Spokane; H. P. R. Dagg, of Walkerville, Ont.

TO FIX WAGES FOR GIRLS IN INDUSTRY

Minimum Wage Board Here To-morrow for Public Session

Ramifications of the Minimum Wage Board are to extend to the women employed in the various branches of the manufacturing industry according to a decision of the Board. A notice has been sent to all those interested in the matter and public meetings for the consideration of the question from the angle of employer, employee and disinterested public will be held at the Parliament Buildings to-morrow, commencing at 10 o'clock and continuing all day if necessary. Further meetings will be held at Room 1111, Vancouver Hotel, on Thursday and Friday of this week, commencing at 10 o'clock.

The notice sent out to employers and employees by the Board reads in part as follows: "It has been decided to issue an order establishing wages and conditions of employment for female learners and inexperienced workers in the various branches of the manufacturing industry. With this object in view the Board submits for your consideration the following tentative schedule of wages in certain branches of the industry. In one or more of which you are engaged: "The manufacturing of biscuits, candies, paint, varnish, soap, soft drinks or aerated waters, cigars, tobacco, drug and toilet preparations, paper boxes and bags, macaroni, vermicelli, flavoring extracts, baking powder, jelly powder, coffee, spices and cheese, and the work of women and girls in creameries, meat-packing establishments, roofing and rag factories, tea mixing and packing, food processing and any other similar work. "Not less than \$5 a week for the first month's employment in the occupation. "Not less than \$10 a week for the second month's employment in the occupation. "Not less than \$12 a week for the third month's employment in the occupation. "Not less than \$14 a week thereafter."

It is the earnest desire of the Board to arrive at a just and equitable settlement of this matter as between employers and employees. The Board, therefore, respectfully requests that you give this question your careful consideration and attend the sessions or forward your written views to the Board at one of the meetings, containing your remarks to the branches in which you are actually engaged."

James Duncan and Mrs. Duncan, of Moose Jaw, and Miss Johnston of Saskatoon, are visiting in Victoria. Miss Lily Painter, of Regina; Miss Baird and Miss Greenfield, of Winnipeg, are at the Dominion Hotel.

Mrs. W. T. Buchanan and four sons, of Harvard Avenue, Winnipeg, are occupying Mr. W. H. Bone's residence, 1778 Rockland Avenue, for the balance of the holiday season.

Miss Elsie Rogers entertained at an informal dance at her home in the evening. Her guests included Mr. and Mrs. Gordon Sloan have left for Vancouver, where they will make their future home. Mr. Sloan has joined the law firm of Farris, Emerson and Sloan.

Mr. and Mrs. Lively and family are staying with Mrs. G. T. R. Mitchell at her camp at Deep Bay for two weeks.

Mr. and Mrs. Stephen Jones and family have been visiting friends in Vancouver and will motor down to Seattle before returning home.

Mrs. W. M. Robertson and family from Brandon are visiting Mrs. G. T. Mitchell, their cousin, at Deep Bay.

Mr. and Mrs. Kenneth McCarter, of this city, are visiting Mrs. McCarter in Vancouver.

Mr. and Mrs. Norman Yarrow are receiving a host of congratulations on the birth of a daughter on July 17.

Mr. and Mrs. D. A. Spouter, of Hamilton, Ont., are registered at the Empress Hotel.

Mr. and Mrs. P. P. Silva, of San Francisco, are guests at the Empress Hotel.

Dr. and Mrs. S. P. London, of Yakima, are staying at the Empress Hotel.

Mr. and Mrs. E. K. Steele, of Kansas City, Mo., have arrived at the Empress Hotel.

Mr. and Mrs. J. W. Coburn, of Nainaimo, are staying at the Empress Hotel.

Cupid Has Busy Time.—Cupid was working overtime last month as usual, according to figures presented to the City Council by Medical Health Officer Dr. A. G. Price, last night. Dr. Price's report showed that there were 51 marriages in June—twice as many as in May. There were 65 births during June, as compared with 58 in May, and 24 deaths, as compared with 35 in May.

Mr. and Mrs. Lively and family are staying with Mrs. G. T. R. Mitchell at her camp at Deep Bay for two weeks.

Mr. and Mrs. Stephen Jones and family have been visiting friends in Vancouver and will motor down to Seattle before returning home.

Mrs. W. M. Robertson and family from Brandon are visiting Mrs. G. T. Mitchell, their cousin, at Deep Bay.

Mr. and Mrs. Kenneth McCarter, of this city, are visiting Mrs. McCarter in Vancouver.

Mr. and Mrs. Norman Yarrow are receiving a host of congratulations on the birth of a daughter on July 17.

Mr. and Mrs. D. A. Spouter, of Hamilton, Ont., are registered at the Empress Hotel.

Mr. and Mrs. P. P. Silva, of San Francisco, are guests at the Empress Hotel.

Dr. and Mrs. S. P. London, of Yakima, are staying at the Empress Hotel.

Mr. and Mrs. E. K. Steele, of Kansas City, Mo., have arrived at the Empress Hotel.

Mr. and Mrs. J. W. Coburn, of Nainaimo, are staying at the Empress Hotel.

Cupid Has Busy Time.—Cupid was working overtime last month as usual, according to figures presented to the City Council by Medical Health Officer Dr. A. G. Price, last night. Dr. Price's report showed that there were 51 marriages in June—twice as many as in May. There were 65 births during June, as compared with 58 in May, and 24 deaths, as compared with 35 in May.

TO FIX WAGES FOR GIRLS IN INDUSTRY

Minimum Wage Board Here To-morrow for Public Session

Ramifications of the Minimum Wage Board are to extend to the women employed in the various branches of the manufacturing industry according to a decision of the Board. A notice has been sent to all those interested in the matter and public meetings for the consideration of the question from the angle of employer, employee and disinterested public will be held at the Parliament Buildings to-morrow, commencing at 10 o'clock and continuing all day if necessary. Further meetings will be held at Room 1111, Vancouver Hotel, on Thursday and Friday of this week, commencing at 10 o'clock.

The notice sent out to employers and employees by the Board reads in part as follows: "It has been decided to issue an order establishing wages and conditions of employment for female learners and inexperienced workers in the various branches of the manufacturing industry. With this object in view the Board submits for your consideration the following tentative schedule of wages in certain branches of the industry. In one or more of which you are engaged: "The manufacturing of biscuits, candies, paint, varnish, soap, soft drinks or aerated waters, cigars, tobacco, drug and toilet preparations, paper boxes and bags, macaroni, vermicelli, flavoring extracts, baking powder, jelly powder, coffee, spices and cheese, and the work of women and girls in creameries, meat-packing establishments, roofing and rag factories, tea mixing and packing, food processing and any other similar work. "Not less than \$5 a week for the first month's employment in the occupation. "Not less than \$10 a week for the second month's employment in the occupation. "Not less than \$12 a week for the third month's employment in the occupation. "Not less than \$14 a week thereafter."

It is the earnest desire of the Board to arrive at a just and equitable settlement of this matter as between employers and employees. The Board, therefore, respectfully requests that you give this question your careful consideration and attend the sessions or forward your written views to the Board at one of the meetings, containing your remarks to the branches in which you are actually engaged."

James Duncan and Mrs. Duncan, of Moose Jaw, and Miss Johnston of Saskatoon, are visiting in Victoria. Miss Lily Painter, of Regina; Miss Baird and Miss Greenfield, of Winnipeg, are at the Dominion Hotel.

Mrs. W. T. Buchanan and four sons, of Harvard Avenue, Winnipeg, are occupying Mr. W. H. Bone's residence, 1778 Rockland Avenue, for the balance of the holiday season.

Miss Elsie Rogers entertained at an informal dance at her home in the evening. Her guests included Mr. and Mrs. Gordon Sloan have left for Vancouver, where they will make their future home. Mr. Sloan has joined the law firm of Farris, Emerson and Sloan.

Mr. and Mrs. Lively and family are staying with Mrs. G. T. R. Mitchell at her camp at Deep Bay for two weeks.

WHAT'S IN A NAME?
Facts About Your Name; Its History, Its Meaning, Whence It Was Derived, Its Significance, Your Lucky Day and Lucky Jewel.
By Mildred Marshall.
(Copyright, 1921, by The Wholesale Syndicate, Inc.)
YVONNE.

Yvonne is almost a name without a history. It is a feminine name obviously invented from the masculine form for the purpose of honoring the name, it had no parallel growth and no parallel reason for being. In short, it is one of the few names in etymological records which were probably originally bestowed upon some girl baby to perpetuate the name of the father in the event that there was no subsequent male heir.

The history of Yvonne dates back to legendary times when a French knight named Ivar established a hermitage in Huntingdonshire in the seventh century, and provided a name for many of his children. The use of this name spread throughout France, where it was known as Yvon.

Yvon became popular among the chroniclers. It was Yvon de Trilho who was the villain in the story of "Hereward" and this camp of refuge. There was also the good St. Ivo de

Vancouver Island News

Cumberland—Following the very successful inauguration of a lodge of the Loyal Order of Moose at Ladysmith, which now has over two hundred members, Organizer Thompson is active in this district laying the foundation work for the formation of a lodge in Cumberland. Many signatures have already been secured towards the fifty names required for a charter, among them being some of our most prominent citizens, says the Cumberland Islander.

The Loyal Order of Moose is an international fraternal society, consisting of more than 1,600 lodges in the United States, Canada and wherever the white race lives throughout the world, and has an aggregate membership of over one million men.

Boy Scouts Revive
 Ladysmith—The Boy Scout-Wolf Cub movement has revived in Ladysmith.

Altogether there are twenty boys in the troop and fifteen in the pack. The patrol leaders are:

R. Duncan—Beaver patrol.
 E. Mahaffey—Buffalo patrol.
 W. Doumont—Bear patrol.

There is still room for more boys and if any care to join they are requested to hand in their names to the patrol leaders or Scoutmaster as soon as possible.

Mrs. Pankhurst to Speak

Cumberland—Mrs. Emmeline Pankhurst, well known in public life, who has been lecturing throughout Canada on the subject of Social Hygiene, has offered her services to the Island Council for Social Hygiene for a lecturing tour throughout the island. A series of lectures has been arranged for her in company with Mr. H. T. Ravenhill and Rev. H. T. Archibald. It is proposed to hold a meeting in Cumberland on Monday August 2.

Something New on Mount Prevost
 Duncan, July 19.—The monument to the Cowichan men who fell in the Great War, which has been in course of construction on the top of Mount Prevost by Geo. Meiller, M.E. and staff, is now about completed. The foliage has been cut away and it stands out in full view for all to look at and remember their honored dead.

Cinderella Dance
 Duncan, July 19.—The Cowichan Agricultural Society's fortnightly Cinderella dance was well attended on Saturday, most of the visiting tennis players being there. It was unfortunate that it was so late in starting, but when it did, at about 10 minutes to ten, everyone seemed to have a good time. Among those present were noticed Mr. and Mrs.

Thwaites and Mr. Mollit from Parksville, V. Westwood of Vancouver, Miss Peggy Jackson and N. Robertson of Victoria.

Lawn Tennis Finals
 Duncan, July 19.—The South Cowichan Lawn Tennis Open Tournament came to its satisfactory conclusion Saturday. There were a large number of spectators, the weather was lovely and some brilliant tennis was witnessed. Doubles were for the championship of Vancouver Island and were doubly interesting on that account. A decisive "tea" was provided by the Bachelors, and Mrs. W. H. Elkington presented the prizes.

Appended are the final scores: Mixed doubles—Mrs. Christmas and W. Smith beat Mrs. Lipcomb and Ford, 6-4, 6-2. Mrs. Hutchinson and Westwood beat Mrs. Cole and Robertson, 6-3, 6-1. Miss Fegg and J. Hutchinson beat Miss Siltwell and W. Corfield, 6-4, 5-7, 6-3. Mrs. Hicks and N. Corfield beat Miss Fegg and Hutchinson, 6-1, 6-4. Mrs. Hicks and N. Corfield beat Mrs. E. C. Corfield and Stevens, 6-2, 6-3. Mrs. Hutchinson and Westwood beat Mrs. Christmas and Smith, 3-6, 6-2, 7-5. Final—Mrs. Hicks and N. T. Corfield beat Mrs. Hutchinson and Westwood, 7-5, 6-1.

Men's doubles—N. T. and W. E. Corfield beat Rev. Ryall and Westwood, 6-4, 6-3, 6-2. Smith and Christmas beat Stevens and Mann, 7-5, 6-1. Final—N. T. and W. E. Corfield beat Smith and Christmas, 6-4, 6-3, 6-2.

Ladies' doubles—Mrs. Knox and Miss Taylor beat Mrs. Lipcomb and Miss Dunne, 7-5, 6-3. Mrs. Knox and Christmas beat Stevens and Mann, 7-5, 6-1. Final—N. T. and W. E. Corfield beat Mrs. Hicks and N. T. Corfield, 6-2, 6-1.

Men's Singles—Miss Stillwell beat Mrs. Green, 6-2, 6-1. Mrs. Knox beat Mrs. George, 7-5, 1-6, 7-5. Mrs. Rickaby beat Mrs. Hicks, 8-6, 6-4. Final—Mrs. Rickaby (Victoria) beat Mrs. Knox, 6-2, 6-1.

Men's Singles—Westwood beat Rev. Ryall, 6-3, 6-2. W. E. Corfield beat D. Stevens, 7-5, 6-4. Final—W. E. Corfield (Cowichan) beat Westwood (Vancouver), 8-6, 8-5.

Nanaimo: A party consisting of two sons of D. C. Coleman, vice-president of the Canadian Pacific Railway, with Miss Grant and Mrs. Baird, arrived in the city from Vancouver on Saturday and left on the afternoon train for Qualicum Beach, where they will spend a few weeks.

Dam Washed Away
 Nanaimo: An auxiliary dam owned by the Western Fuel Corporation, which is located between the company's cement dam and No. 1 dam of the City of Nanaimo, which is fed from an overflow of No. 1 and No. 2 dams of the city, gave way on Saturday night, the water rushing over the cement dam and washing away the foundation of a trestle leading to the company's farm. It is presumed that the company's dam could not stand the pressure of the overflow from No. 1 and No. 2 and part of the foundation under a trestle bridge, caused Chase River to become a raging torrent for a while, the river rising four feet in half an hour.

O. D. E. Fate at Ganges
 Under the auspices of the Ganges Chapter, I. O. D. E. an attractive and successful garden-fete was held at Ganges on Friday, July 15, in the grounds belonging to Mr. and Mrs. Orenham. As a result of the affair the Chapter's funds will be augmented by between \$85 and \$90.

A parade of babies in decorated buggies created much interest and admiration. Mrs. William Evans won the first prize with a buggy charmingly decorated in marigolds.

Mrs. Frank Crofton was second with a buggy which took on the semblance of a swan, while Mrs. V. C. Morris took the third prize with a quaint decoration of green and brown the baby representing a tiny brownie seated under a toadstool.

Rifle shooting under Messrs C. Baker and Percy Lowther was won by Mrs. Price and Fred Allen; clock golf under Mrs. Sutherland's direction, Mrs. Sutherland, M. McAfee had charge of coconut shies; Mrs. Knowles and Miss Beryl Scott, palmistry and cards; Mrs. Walter, Holmes and Miss V. Royal, fancy work; Mrs. Best the guessing competition; ice cream, Mrs. Akerman and Mrs. Birkett. The tea arrangements were in the capable hands of Mesdames P. Beach, Abbott, Harvey and Miss Beddie.

Saturday and left on the afternoon train for Qualicum Beach, where they will spend a few weeks.

PAINFUL DIARRHOEA
 Mr. Fred Funston, Craik, Sask., writes: "A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. The cramps in my stomach were dreadful, the heads of perspiration would stand out on my face at times I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I used it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work of stooking the wheat. The same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use Dr. Fowler's, when they soon experienced a great change."

CRAMPS IN STOMACH
 Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 76 years and many cheap imitations are being offered to the public.

Be sure and get the genuine put up only by The T. Milburn Co., Limited, Toronto, Ont. Price, 50c. a bottle. (Adv.)

EXIT BETTY

By
 Grace Livingston Hill
 (Mrs. Lutz)

Author of "The Search" "Marcia Schuyler," "The Enchanted Barn," etc.

That evening on the way to the movies Jane instituted an investigation.

"Jimmie, what kind of a man is your boss?"

"White man!" said Jimmie promptly.

"Aw! Cut it out, James Ryan! I don't mean how'd he look, or what color is he; I mean what kind of a man is he?"

"Well, that's the answer. White man! What's the matter of that? I said it and I meant it. He's white if there ever was one!"

"Oh, that!" said Miss Carson in scorn. "Of course I know he's a peach. If he wasn't you wouldn't be workin' for him. What I mean, is he a snob?"

"No chance!"

"Well, I saw him with 'em last night. I was passin' that big church up Spruce Street and I saw him standin' with his arms folded and he was pausin' on the sidewalk and indicated his pose. 'It was a swell weddin' and the place was full up. He had a big car and a claw hammer coat. I know it was him 'cause I took a good look at him that time you pointed him out at church that evenin'." I wondered what he was in with them swell."

Her tone expressed scorn and not a little anxiety, as if she had asked whether he frequented places of low reputation.

"Oh, if you mean, could he be, why that's a different thing!" said James.

"Sure, he could be if he wanted, I guess. He's got a good family. His uncle's some high muckmuck, and you often see his aunts and cousins' names in the paper giving tests and receptions and so on. But he don't seem to go much. I often hear folks ask him why he wasn't some place last night, or 'phone to know if he won't come, and he always says he can't spare the time, or he can't afford it, or something like that."

"Ain't he rich, Jimmie?"

"Well, no, not exactly. He may have some money put away, or he may be some one, or he may be a capitalist. She must be very careful. This might be all the money she would have for a very long time, and she might have to get away as eagerly as she had come. Jane was all right, but that's not saying that her mother and sister would be.

(To be continued)

to get used to her new self and her new name. Jane had written it, Lizzie Hope, on the back of the envelope containing the address of Mrs. Carson. It seemed somehow an identification card. She studied it curiously and wondered how Lizzie Hope was going to be any happier than Betty Stanhope had been. And then she fell to thinking over the strange experiences of the last twenty-four hours and wondering whether she had done right or not, and whether her father would have been disappointed in her, "ashamed of her," as her step-mother had said. Somehow Jane had made her feel that he would not, and she was more light-hearted than she had been for many a day.

Late in the afternoon she began to wonder what Tinsdale would be like. In the shabby boarding was her ticket to Tinsdale and eight dollars and a half in change. It made her feel richer than she had ever felt in her life, although she had never been stunted as to pocket money. But this was her very own, for her needs and nobody but herself to say how she should spend either it or her time.

Little towns came in sight and passed, each one with one or two churches, a schoolhouse, a lot of tiny houses. Would Tinsdale look this way? How safe these places seemed, yet lonely, too! Still, no one would ever think of looking for her in a lonely little village.

They passed a big brick institution, and she made out the words "State Asylum," and shuddered inwardly as she thought of what Jane had told her about the morning paper. Suppose they should hunt her up and put her in an insane asylum, just to show the world that it had not been their fault that she had run away from her wedding! The thought was appalling. She dropped her head and hid the tears that would come, but presently a boy came in at the station with a big basket and she bought a ham sandwich and an apple. It tasted good. She had not expected that it would. She decided that she must have been pretty hungry and then fell to counting her money, aghast that the meager sum she had was so small.

She must be very careful. This might be all the money she would have for a very long time, and she might have to get away as eagerly as she had come. Jane was all right, but that's not saying that her mother and sister would be.

(To be continued)

G. W. V. A. TAKES OVER NEW HOME

Returned Soldiers Now in New Quarters

The G. W. V. A. house warmed its new headquarters, Bastion and Langley Streets, last night with a reception attended by 150 members and their wives and members of the Ladies' Institute to the G. W. V. A. and the naval branch.

Col. Winsby, who presided, presented the address to Mrs. F. Ricketts, president of the Women's Auxiliary, as an expression of "grateful thanks for your unremitting zeal in furthering the interests of returned men, their dependents and the dependents of those who made the supreme sacrifice."

"As a member of the executive committee of the Women's Auxiliary from the day of its inception, and as president since March, 1920, you have worked quietly, conscientiously and well to bring about the consummation of the hopes and ideals of the parent body," the address went on. "Unselfishness has characterized your every action, and in rendering service to the very limit of your ability, you have effaced yourself, seeking only to serve without thought of self-glory or personal gain. The dignity of the organization which has honored you by twice electing you to the presidential chair has been splendidly maintained under your able and administration, and the position of importance which it occupies in the community is to a great extent due to your personal influence."

The fact that you are the mother of a son who served his country on the battle-front, and who was largely instrumental in founding the Dominion-wide organization, gives you exceptional claims upon our regard, but your own sterling merits, faithful service and unflinching loyalty, apart from any other consideration, have earned our love and lasting gratitude."

Mrs. P. Brooke, Miss Lily Dooley.

Years of Piano Building

The first KNABE Piano was built in 1837. A superb instrument, yet offered to you upon very convenient terms.

Willis Pianos, Ltd.

1003 Government St. No. 514

Miss S. McIntyre, Ernie Impett, Tom Dooley and M. Pinder furnished the musical entertainment.

It was Lily Dooley's night off from her regular beat at the Princess Theatre and the fact that she so willingly volunteered her services won the admiration and appreciation of the G. W. V. A.

Excellent music was rendered by the orchestra under bandmaster Miller and dancing was indulged in until midnight. J. H. Pinder was the pianist.

Refreshments were served during the evening and everyone present thoroughly enjoyed the evening's entertainment. Walter Drinnan, provincial secretary-treasurer of the G. W. V. A. was among the guests. Comrades G. G. Aitken, Welsh, Garnet, Brook, Neary and Hart had charge of the arrangements.

BANK MEMORIAL UNVEILED AT DUNCAN

Duncan, July 19.—A most interesting ceremony took place yesterday afternoon at the Canadian Bank of Commerce here. The bank has provided a handsome bronze tablet for each branch, with the names on it of those who enlisted from that branch for service in the Great War; and A. J. Marlow, the manager at Duncan, invited a few people to witness the unveiling of the tablet today. The Mayor, T. Pitt, took the chair and asked the Rev. A. Bishop, to open the proceedings with prayer. Mr. Marlow made a short and appropriate speech, stating that the bank were going to perpetuate the memory of their men who had answered the call of duty and said that of a staff of twenty-four hundred, 1761 had enlisted and 346 had made the supreme sacrifice. He then

asked Kenneth Duncan, M.P.P., to unveil the tablet, which he did and made an able speech giving the names, ages, regiments and engagements of the three men whose names were inscribed thereon. They were: Pte. W. W. Gillespie, Gnr. A. D. Carr Hilton, Pte. H. Wilbraham-Taylor. The last named being killed in action at Ypres.

Rev. F. L. Stephenson then said a few words congratulating the bank who had gone and Mrs. E. W. Carr Hilton, father of one of the men, spoke briefly as to the pleasure it gave him to be present, and that the bank had taken good care that their men who had laid down the pen and taken up arms should not be forgotten.

Those present were Kenneth Duncan, M.P.P., Rev. A. Bishop, Rev. F. L. Stephenson, Mayor Pitt, Mr. and Mrs. E. W. Carr Hilton, A. J. Marlow, manager, A. D. Carr Hilton, G. E. Winsby and P. Campbell.

Nestle's Food

The Perfect Substitute for Mother's Milk

Nestle's Food is a complete diet in itself. It requires no milk to prepare, but is ready for the bottle when mixed with water.

It is made from cow's milk—but so treated and modified that it contains all the constituents of mother's milk, in a form that will be readily digested and assimilated.

If you cannot nurse your baby, don't risk its health—perhaps its life—by feeding cow's milk. Use Nestle's Food and protect the baby against Summer stomach and bowel troubles.

Write for a large free sample of Nestle's Food—and also the copy of our new book, "Infant Feeding and Hygiene."

NEWS IN BRIEF

Scout Officers to Meet.—The regular monthly meeting of the Victoria Scout Officers will take place on Wednesday evening at 8 o'clock in room 221 Pemberton Building. All Scout officers are cordially invited to be present.

To Hold Garden Party.—The ladies of St. James' Anglican Church, Quebec Street, will hold a garden party at the beautiful Munro property on Douglas Street, corner of Michigan, commencing at 3 o'clock Saturday afternoon. All are invited to attend and a varied list of attractions will be offered.

G.W.V.A. Meeting.—A meeting of the Great War Veterans' Association will be held tonight at 8 o'clock in their rooms, Bastion Street, when the nominations of officers for the coming half-yearly term will be received, and other important business will be discussed. The executive of the organization will convene at 7 o'clock.

Regret Mr. Shalleross's Death.—The City Council last night formally placed itself on record as deeply regretting the recent death of J. J. Shalleross who, during his career here, was so closely identified with civic affairs. Members of the Council voiced unstinted praise for the useful work which Mr. Shalleross had done for Victoria.

In Police Court.—The charge against Lai Jim of being unlawfully in possession of liquor was withdrawn in the City Police Court this morning. City Prosecutor C. L. Harrison deciding that there was insufficient evidence to secure a conviction. The liquor was ordered returned. Magistrate Jay in the Provincial Police Court fined C. E. Whitaker \$10 for allowing his setter to hunt game. It is reported that no less than 140 birds at the pheasant farm at Colquitz have been killed by dogs. Owners are cautioned to keep their dogs in leash.

Royal Society of St. George.—A general meeting of the Royal Society of St. George will be held on Thursday evening next at 8.30 o'clock in Christ Church schoolroom. Special business in the arrangement to be made for the annual picnic which is to be held at Deep Bay. There will also be a musical programme, and an address by the president, Dean Quinlan. Owing to the secretary being out of the city, members are asked to accept this notice instead of the usual notice sent by mail.

Princess Patricia Lodge.—At the regular meeting of the Princess Patricia Lodge No. 228, Order Daughters of St. George, it was voted that the worthy president, Sister A. Coleman, should accompany the District Deputy Supreme President, Sister E. Stevenson, to Bellingham, Wash., next week for the purpose of instituting a new lodge of this Order. A large number of members present. The lodge will hold its military 500 in the I. O. O. F. Hall, Douglas Street, on Wednesday evening at 8.30. The conveners in charge this month are Sisters Grant, Donaldson and Laing. After the meeting an informal social and dance was held, the conveners being Sisters Burkman, King, Gorton, Ward, Latham, Aiken and R. Ward.

Robbery a La Mode

Recent months have produced many recherche incidents in the field of highway robbery. With a genius worthy of a better cause our modern bandits have devised methods of stopping motor cars on the highway, that have ranged from broken bottles to pleas for charity. However, the palm for ultimate efficiency of operation must go to a frolicsome pair of New Jersey bandits, who recently managed to adopt the modern instruments of safety first to their own nefarious purposes.

This pair of modern Dick Turpins selected a somewhat lonely railway crossing in the populous section of commuting Jersey and one propitious evening, overpowered the crossing guard and lowered the safety gates. The trap thus sprung they had not long to wait. Up drove a car.

Our gentlemanly bandits quickly relieved the occupants of their valuables and made them wait where they were. Soon another victim entered the web, and another and another. After the haul had reached substantial proportions, the bandits selected what seemed to be the fastest car of the lot and coolly drove away.

Next to robbing a hospital or an asylum for the wealthy blind, we do not know of any graft that is much softer than this. But the finger of experience seems to point toward the foundation of a highway police force to make our roads safe for what remains of our honest population.

BRONCHIAL ASTHMA

To get quick and sure relief of Bronchial Asthma and Hay Fever get the efficient remedy, Sold only at the Hillside Pharmacy (Quadra and Hillside) and the Cobble Hill Drug Store.

Partridge Cords

VICTORIANS VISIT

PORT ANGELS CLUB

Secretary Wm. Walter and G. A. Kirk, of Kiwanis Club, Present

The initial meeting of the Port Angeles Kiwanis Club, held on Thursday in that city, with Walter M. Walker, secretary, and G. A. Kirk, of the local Kiwanis Club, attending.

The Port Angeles Club was sponsored by the Victoria Kiwanians, who have since taken a keen interest in its welfare.

Started but a brief time ago the Port Angeles Club has now fifty members and is growing rapidly.

District Governor Charles F. Riddell, in the course of a splendid address, encouraged the club with his phenomenal growth, and referred in warm terms to the interest displayed by the Victoria unit of the Kiwanis Club in the growth of the brother organization.

On Saturday, August 4, the District Inter-City assembly of the Kiwanis Clubs is to be held at Paradise Inn, Mount Rainier Park, when members of all district clubs will attend to exchange greetings and ideas.

FINDS BUSINESS

GENERALLY QUIET THROUGHOUT ISLAND

After visiting the leading industries and hospitals on Vancouver Island, hearing claims and investigating working conditions, E. S. H. Winn, chairman of the Workmen's Compensation Board, has returned to Vancouver. He was accompanied on his trip by Dr. G. A. B. Hall, chief medical referee of the Board, and visited Nanaimo, Alberni, Parksville, Union Bay, Cumberland, Courtenay, Comox and Campbell River.

While conditions generally among the industries on the island are not of the brightest, Mr. Winn stated that the men at the head of these enterprises are optimistically inclined and

are emphatic in their views that the present lull is but a temporary one and that with the harvesting of the huge crop on the prairies the demand for British Columbia lumber and wood products will increase.

Water At Forty Feet—Jones & Rant, contractors, have just finished a contract for drilling a well on a ten-acre tract, situated on the new West Saanich Road, below the Saanich Observatory, the property of Swinerton & Musgrave, which they are preparing to put on the market.

The work was done by Mr. Bugbee, an expert driller. The drill hole was sunk in the rock at a point located by Mr. Wriglesworth. Mr. Wriglesworth has an enviable reputation as a water finder. He has discarded the ancient willow wand and uses metal rods instead. A good supply of water was found within the forty feet, the depth at which he said it would be found.

A star drilling machine was used, with a six-inch drilling stem, weighing about half a ton, the constant pounding of this drill breaking through the hardest rock.

HUNDRED PER CENT. SAVING IN WASTE

A device that absolutely prevents the waste and inconvenience of oil or petrol splashing out through the filler caps consists of an ordinary tire valve plug fixed into the cap of the oil or petrol tank by drilling and soldering. Not only does it function as a leakproof air vent, but it provides an ever-ready means of clearing the oil-way in a gravity feed, no matter whether the stoppage be due to dirt, or cold in winter, by the simple process of applying the inflator. It will be found that enough pressure can be put in the tank without the necessity of fitting a valve rubber.

ACCIDENTAL DROWNING

Coroner's Verdict in Case of Veteran Wesley Mastin.

That death was due to accidental drowning was the verdict brought in by the coroner's jury late yesterday at the inquest over the body of Wesley Mastin, 44, of 1444 Florence Street, found Saturday noon by a small boy floating in the waters of Uplands.

The inquest was held at the Thompson Funeral Home by Coroner Hart. Nothing new was added to the story already published in The Times. Joseph Carrier, Mastin's father-in-law, testified that Mastin had suffered from insomnia and had been in the habit of walking to the beach. Mr. Mastin, he said, had no troubles, financial or otherwise. The boy, John Hea, who found the body, and Constable Kirby of the Oak Bay Police, testified that at the point where the body was found floating there was a steep rocky bank with a depth of about nine feet of water at the bottom at the time the remains were found.

Mr. Mastin leaves a widow. As already reported, he was a veteran of the Great War having served overseas with the 103rd Battalion.

The funeral took place at three o'clock this afternoon from the Thompson Funeral Home, interment being made at Ross Bay cemetery.

Let Cuticura Be Your First Thought Always

When the first signs of pimples, redness, or roughness appear: smear gently with Cuticura. Ointment to soothe and heal, then bathe with Cuticura Soap and hot water to cleanse and purify. G. W. V. A. GREAT FACTOR IN LIFE OF THE COUNTRY

Walter Drinnan Speaks of Pt. Arthur Conference and Coming Convention

Greatly impressed with the great moral effect of the G. W. V. A. conference which he attended at Port Arthur, Walter Drinnan, secretary-treasurer of the provincial branch of the Great War Veterans' Association, looks forward to the Dominion convention which will also be held at Port Arthur, in anticipation of even greater accomplishments by this powerful and influential Veterans' Association.

"The convention, which will be held late in September or early in October, will be one of the biggest events in Canadian history. The Twin Cities are staging an eight-day pageant and among the nobles who will be present will be Admiral Beatty, Marshal Foch, Earl Haig, Viscount Byng, General Currie, General Pershing and others," said Mr. Drinnan. "Needless to say there will be a large gathering of visitors from Canada and the United States and other countries to witness this novel display, in connection with which Port Arthur and Port William are sparing no expense or trouble."

"If the recent conference is any criterion, we may look forward to a convention full of enthusiasm and charged with a due sense of the responsibility which rests upon the shoulders of the G. W. V. A. in dealing with national affairs and in upholding national ideals," said Mr. Drinnan to The Times.

"Our organization enunciates policies only after deep and careful study as to the effect on the country as a whole and it cannot be claimed that we are self-centered or that we are looking merely after our own interests to the disadvantage of others. The men who are at the head of the Dominion-wide organization are a credit to the country and to the Association and we hope that the deliberations of the forthcoming convention," said Mr. Drinnan.

DEPUTY MINISTER OF NAVAL SERVICE ARRIVING TO-DAY

G. J. Desbarats, C. M. G., Deputy Minister of Naval Service, Here

G. J. Desbarats, C.M.G., Deputy Minister of Naval Service, arrived on the afternoon boat from Vancouver in connection with the annual tour of inspection of naval matters in the west. Upon arrival here Mr. Desbarats was met by Engineer Lt.-Commander Clarke, in charge of the naval dockyard, Esquimalt, and will be shown over the Esquimalt yard.

Of special interest to the visiting official is the Naval College at Esquimalt, where numerous competitors have sat for examination for entry. Only fifteen of these competitors will be admitted, it is stated.

Interviewed in Vancouver prior to his departure for Victoria, Mr. Desbarats outlined the situation in regard to the naval training colleges in Canada as follows:

"I have come out to the West to look over the general situation," explained Mr. Desbarats. "I shall spend a short time at the Naval College at Esquimalt. We have had many competitors in the examinations conducted for entry to the college, but shall admit only fifteen candidates."

The Deputy Minister explained that there was great enthusiasm among young men in the Dominion to become associated with the naval service, both as officers and lower ratings.

He announced that a training school for boys would soon be opened at Halifax—within the next month if possible. He explained that the Admiralty was now carrying some fifty lads for general training, who eventually would become part of the navy's complement of sailors.

The Canadian navy, continued Mr. Desbarats, was now training reserve engineers of the imperial navy, who otherwise would be obliged to return to England for their professional course and brush up training.

Satisfied With Training.

That British authorities were quite satisfied with the training accorded on Canadian ships, and with the system of naval training colleges was stated by Mr. Desbarats, who added: "The Canadian navy will serve a very practical purpose in the Dominion, and will materially assist the British naval authorities in the work of carrying on peace-time training."

Consider This, Canadian Manufacturers

You can buy more advertising for less money in Daily Newspapers than you can buy in any other medium that enters the home.

And, after all is said and done, the place where most of you want your advertising to have its greatest effect is in the home. Isn't that so?

Remember, then, that the daily newspaper is the FUNDAMENTAL ADVERTISING MEDIUM.

That is why so many manufacturers are cutting out the "frills of advertising" and confining their advertising efforts to daily newspapers.

Pendray Family Has Proved Faith in City Was Fully Justified

Large Soap and Paint Works Instituted By Late W. J. Pendray Example of Pioneer Enterprise; Grew and Prospered From Modest Beginnings; Room For Industries Here.

In these days when so much is being said about the need of new industries in Victoria, it is interesting to review some of those established here in the early days by hardy pioneers whose keen foresight, enterprise and courage enabled them to fight their way over all obstacles. A number of large establishments in the city to-day stand as monumental evidence of the pluck and determination exercised in those days when Victoria did not possess all the modern facilities for developing permanent industrial works that she does to-day.

One of the most striking instances of what can be accomplished from a modest beginning is shown in the establishment of the soap and paint works in Victoria by the late W. J. Pendray, whose business career was as romantic as it was successful, and who might aptly have been termed "The Wizard of Cleanliness," for millions of pounds of soap and paints of all kinds manufactured at the plants established by him have been used in brightening things up at home and abroad.

It was as far back as 1875 that the late Mr. Pendray set up the B. C. Soap Works at 25 Humboldt Street. The plant covered an acre of ground, and washing soaps and powders, toilet and shaving soaps and various other products were manufactured. Even in those days "Pendray's" had a great deal to do with acquiring the world that Victoria was on the list of manufacturing centres.

Confidence in Victoria
There was never any thought of moving the plant to the Mainland or elsewhere, for any of the reasons advanced by numerous others who did not prove so successful in business, and faith in this city and faith in the industry were the prime factors responsible for the two large works where soaps and paints are now being manufactured along Victoria's waterfront. The soap works has been carried on under the name of W. J. Pendray & Sons, while paints, varnishes and other products are being turned out under the name

instructive, and the minute tests that are carried out at various stages of the process of manufacture convince one of the efficiency and care that is exercised in order to insure the consumer the very best article obtainable.

The Pendray Brothers are just as keen on upholding the traditions of the firm for high-class products as was their esteemed father, J. Carl Pendray, as president of the Victoria and Island Development Association, is a strong advocate of industries for Victoria. "Holding meetings, passing resolutions and getting a lot of publicity in the newspapers will not start an industry. If you know of a feasible proposition, work out your details, secure the necessary capital if you lack it yourself and start something, even if it is only in a small way. All things must have a beginning, and it is better to start small and grow than try to puff out into a ready-made, full-blown proposition that may burst," says Mr. Pendray.

Day in and day out there is one ceaseless string of shipments inbound and outbound from the paint works. The raw materials are quickly put through the necessary processes, but in this connection there is a great deal of detail that the novice would never imagine necessary to the manufacture of paints, varnishes, kalsomine and so forth. A good many

burrs are used, are interesting. The huge plant is webbed with piping, through which various finished and unfinished commodities are passed. That a carload of linseed is used every week and that 1,600 gallons of Shingoleen alone is turned out daily conveys only a slight impression of the magnitude of the industry.

The cans and containers for Bapco products are made on the premises, and the company has its own printing plant for the printing of labels. Needless to say, a large staff is employed in the plant, which means a large and steady payroll for Victoria.

Varnish Manufacture
The manufacture of varnish is interesting. Huge copper kettles are used to cook the mixture, which is placed over coke ovens generating a heat of 650 degrees Fahrenheit. A large tank room is used for the storage and maturing of the high grade varnishes. In this room is a wonderful little machine known as a clarifier. The varnish is forced through filter papers by a centrif-

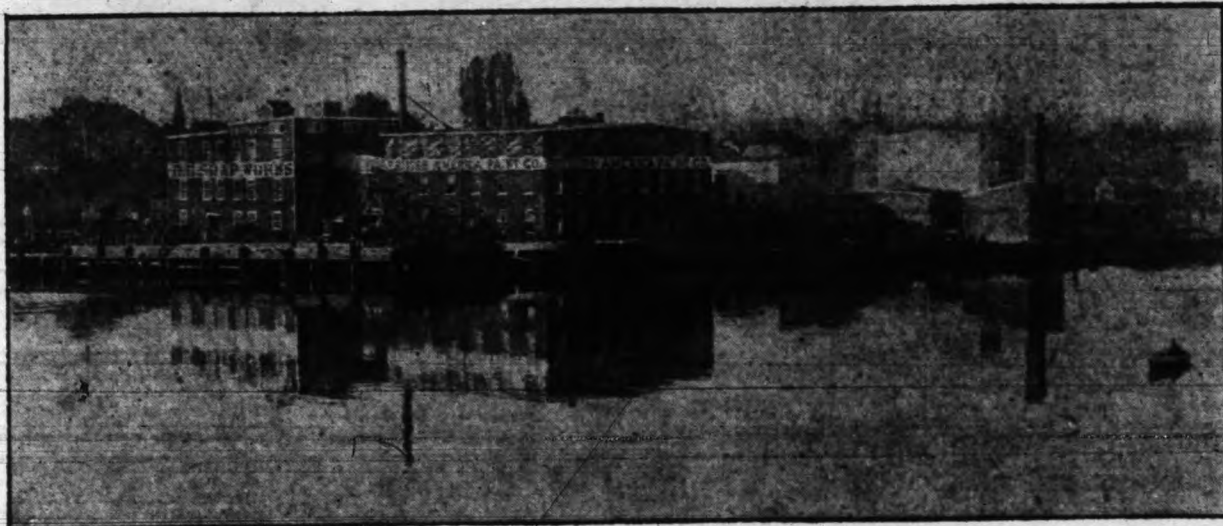

engine. A big-end knock will sound quite different when the rule is held on the crankcase than when it is held on the cylinder. Listening for a few seconds at different spots will soon determine the exact location of the trouble. It should be noted that a jointed rule is useless in carrying out this test.

**IS YOUR STOMACH SOUR?
DO YOU BELCH GAS?**

If your have sour rising from the stomach, feel bloated and uncomfortable, just try twenty drops of Nerviline in sweetened water. Relief will come quick. Nerviline dispels the gas, sweetens the stomach, makes you fit and fine in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35-cent bottle of good old "Nerviline."

King Albert of Belgium is credited with the largest touring car in the world. The car is in two sections—an ordinary automobile in front, with a large coach-like trailer attached. It has accommodation for fifteen persons and sleeping quarters for ten. The trailer consists of a kitchen, bathroom and a combination lounge and dining room. The machine is designed for hunting in Africa.

PIONEER BUSINESS PLANT ON INNER HARBOR

The present premises of the B. C. Soap Works and the British America Paint Company, an industrial landmark at Laurel Point.

WAREHOUSE OF BRITISH AMERICA PAINT COMPANY

CORNER IN THE MELTING ROOM WHERE VARNISHES ARE MADE

of the British America Paint Company, Limited.

Prior to 1850 all paints were mixed by hand just previous to being used, but later the present system of mixing paints at a factory was introduced whereby paint was put in cans ready for instant use. The first paints ready for use were made in 1852.

The art of mixing colors to produce the almost innumerable tints used in painting at the present time has been an evolution of the nineteenth century. In making paints there are two essentials, the pigment

and the vehicle, the former composing the body, ground to fine powder, mixed with the latter, composed of varying materials according to the requirements of the work. For the painting of buildings or outside work, linseed oil, boiled with sulphate of lead or zinc or with carbonate of lead, is found to be superior.

An Instructive Tour

Not all is paint that glitters, a fact that is amply demonstrated by an analysis of some of the products turned out as paint. A tour through the local paint works proves highly

people fancy that all that is necessary to make paint is to take the pigment and the oil and mix them together.

In the first place, all the raw materials are tested. The preliminary mixture is then put through the chaser, a huge basin in which a two-ton iron wheel revolves at great speed. Through various stages of mixing and grinding the paint is passed until it reaches the canning stage.

Extent of Industry
The grinders, in which French

gal force of 4,000 revolutions to the minute, and thus this machine accomplishes something that would seem impossible and incidentally guarantees the purity of the varnish. Apart from the actual manufacture of paints, varnishes, etc., the facilities for testing the product and following up any inferior batch that might slip through are simple and wonderfully efficacious. The company has a private mark on every can whereby it can tell immediately a faulty can is reported to what hatch it belongs, what day it was manufactured and where the various lots belonging to that batch have been consigned.

The old-fashioned and unreliable method of testing varnish by hand application has been done away with through an invention called a viscometer, which with absolute accuracy denotes the brushing qualities of any lot of varnish that is being manufactured, and denotes exactly when the treatment has arrived at the proper completed stage.

Value of System
The company operates a fully-equipped chemical department, where all raw materials are tested and the exact proportion for any mixture required are worked out. The factory office is wonderfully equipped and systematized, and in addition to keeping track of every color of paint carried in the various warehouses it is able to duplicate at a moment's notice any repeat order, even though the original dates back many years, the formulae used since the plant was started being tabulated and indexed for ready reference.

Alongside the paint works is the big plant where the famous White Swan Soap is manufactured, and these two establishments form one of the oldest and most firmly established industrial undertakings in Victoria.

A SIMPLE STETHOSCOPE

How many readers know the following simple "dodge"? To find a knock, hold an ordinary foot rule between the teeth, keeping the lips clear of the rule, plug the ears with the two forefingers, and apply the free end of the rule to different parts of

CHINESE PAGODA

2000 YEARS OLD

The Chinese sacred tower, illustrated here, has stood serenely perfect for a score of centuries. Its excellent state of preservation is marvelled at by all who see it. Today, however, this secret of this preservation is known—Tung Oil or China Wood Oil. This oil, with its wonderful qualities, is incorporated in the manufacture of

BAPCO FLOOR VARNISH

an exceptionally lustrous varnish, possessing powers of endurance almost beyond belief. Use it on floors, furniture, or any interior woodwork. Natural and five colors, in cans sized to suit your requirements.

CALGARY

EDMONTON, REGINA

A Famous Agent of Economy

Not so long ago the elasticity of the family budget was in many cases entirely unequal to the strain put upon it and the question of ways and means of making "ends meet" was sufficient to drive the average head of a home or of a business into a nervous breakdown. Happily, however a solution was found!

The solution was the classified advertisements!

The classified advertisements came into their own!

In that not-so-long-ago-time the little paragraphs were used occasionally and no one got their full value. But in the crisis they proved up and they are now recognized as an ever present aid to economical buying. There is nothing to-day in the human wants that cannot be found in the classified columns and there is no more effective way of securing what you want than through the classified columns.

They are "Uncommon Sense" in business or home.

key Walker, of Elizabeth, N.J., fought a twelve-round no decision contest last night, with popular opinion divided as to the winner. Britton scored a nine-second knockdown in the opening round, but his opponent recuperated quickly and clinched the titleholder in the fourth and sixth sessions. The champion then succeeded in outboxing his man at long range in the latter rounds. Britton weighed 149; Walker, 164.

LEADS TOURNAMENT

Nowowski Takes First Place
in Defeating Charles Jaffe
in Ninth Round

Atlantic City, N. J., July 19. —
James Janowski, chess champion of
the world, took the lead yesterday in
the chess masters' tournament by
defeating Charles Jaffe, of New
York, in the ninth round, after 62
moves. Jaffe was six and a half
points to his credit, one-half more
than Jaffe and N. T. Whitaker, of
Washington, who won yesterday
from Samuel Factor, Chicago, after
61 moves.

M. D. Hago, New York, won from
G. Murnin, Washington, after 107
moves; Frank Marshall, American
champion, and I. S. Turover, Wash-

...won from E. S. Jackson, Philadelphia, by default, and Staschotzki, Los Angeles, and S. T. arp, Philadelphia, adjourned their meeting.

Hago has won five and one-half times: Factor five: Sharp, Mitchell, Burnin and Turover, four; and one each: Motokowai, four; Jackson two and Harvey one.

WHAT THE CLUBS ARE DOING

Prince Rupert Rotary.

There were five guests at the last Prince Rupert Rotary Club luncheon. Jack Motherwell, chief inspector of

of the Prince Rupert Pulp and Paper Company; Archie Willis, Sports Editor of The Victoria Daily Colonist; and the following members of the Victoria Gyro Club: H. E. Hosking, of Smithers, and J. Barnes, representing Walter F. Barnes Company, and member of the Victoria Gyro Club. Mr. Willis said that the Victoria Gyro Club had launched a movement in Victoria which it hoped would spread up through the Dominion of Canada, commemorating ten years' battle which Canadians fought in France and Belgium. It had already been taken up in Victoria, where the school children had been asked to fly flags and the teachers had given fifteen-minute talks on the title of Vimy to the pupils in the schools. Nine more schools were to celebrate. Fifteen thousand Canadians had laid down their lives.

re important to learn of them thru the Wars of the Roses or other similar historical events. History has been made by the fathers and mothers of the pupils in the schools and of this they should know. He noted that Prince Rupert Rotary Club was a hand in making this movement national one.

Mr. Willis said he admired the community spirit of Prince Rupert and the fact that the school boys and knuckers which was refreshing. He said that the people were not afraid to boost at they had and make the most of it.

community spirit of Prince Rupert. He found here an absence of knockers which was refreshing. The people were not afraid to boast that they had and make the most of it.

ONTARIO'S LEAD**

(Continued from page 1.)

Possibilities

The name of Herbert Greenfield, vice-president of the U. F. A., is mentioned prominently for the premiership, and that of George Hoadley, member-elect for Okotoks and recently a Conservative, has had some attention.

It is expected in Calgary that Alex Ross, Labor member-elect for Calgary, will find a place in the Farmer Cabinet, presumably as the first Minister of Labor of the province.

J. E. Brownlee, general counsel for the U. F. A., is believed to be the most probable choice for Attorney-General.

Mrs. Walter Paribby, member-elect for Lacombe, may be given a post in the administration. Most of the Farmer members-elect are comparatively unknown in the public life of the province outside their immediate districts, but there is no doubt that plenty of them are of Cabinet calibre.

Conservatives

The election saw the virtual disappearance of the Conservative Party from the Legislature. The twelve candidates who ran on the straight party ticket were defeated. Brigadier General J. Stewart, victorious in Lethbridge in a contest with a Labor opponent, is termed an Independent Conservative.

A. F. Ewing, leader of the provincial Conservative Party, ran next to the five successful Liberals in Edmonton City.

The rumor that Hon. Charles Stewart might lead a Farmers' Government was revived here to-day, but The Morning Albertan thinks that he would not care to take over the task.

Members-Elect.

A summary of the results of the election yesterday follows:

United Farmers of Alberta (39).

Acadia—L. Proudfoot.
Alexandra—P. Enzenauer.
Camrose—V. W. Smith.
Cardston—G. L. Stringham.
Coronation—G. N. Johnston.
Cochrane—A. Moore.
Didsbury—A. E. Clappool.

High River—S. Brown.
Hand Hills—George Forrester.
Geichen—G. C. Buckley.
Innisfail—D. Cameron.

Lacombe—Mrs. Walter Paribby.
Lac Ste. Anne—C. M. McKeen.
Leduc—D. S. Muir.
Little Bow—O. L. McPherson.

Medicine Hat—H. Baker.
Okotoks—George Hoadley.
Peace River—D. M. Kennedy.
Pembina—George McLaughlin.

Ponoka—P. Baker.
Pincher Creek—E. G. Cook.
Red Deer—G. W. Smith.
Redcliff—W. C. Smith.

Stettin—L. Saunders.
St. Albert—P. St. Arnault.
St. John—J. J. Joly.
Stony Plain—W. M. Washburn.

Sturgeon—A. Carson.
Taber—L. Peterson.
Vegreville—A. M. Matheson.
Vermilion—H. G. Reid.

Liberals (14).

Calgary—R. C. Marshall.
Edmonton (5)—Hon. J. R. Boyle.
A. R. McLennan, J. C. Bowen, J. P. Heffernan and Mrs. Nellie McClung.

Edson—Hon. C. W. Cross.
Athabasca—George Miller.
Beaver River—Joseph Dechene.
Bow Valley—Hon. C. R. Mitchell.

Clearwater—O. M. Lee.
Crowsnest—Hon. J. L. Cole.
Whitford—A. S. Shandro (acclamation).
Sedgwick—Hon. Charles Stewart (acclamation).

Labor (4).

Calgary—Alex Ross and Fred J. White.
Medicine Hat—G. Johnston.
Rock Mountain—P. M. Christopher.

Independents (4).

Lethbridge—Brig. Gen. J. S. Stewart, Independent Conservative.
Calgary—R. C. (Bob) Edwards and Robert Pearson.
Claresholm—T. C. Milner.

Calgary.

The winning candidate in Calgary had the following votes: Ross, Labor, 6,842; Edwards, Independent, 6,141; White, Labor, 5,818; Marshall, Liberal, 5,248; Pearson, Independent, 4,938. Fifteen were defeated, the total number of candidates being twenty.

**VICTORIA FIRM
GAINS \$2,000,000
INSURANCE ORDER**

Fire insurance on properties of the Pacific Great Eastern Railway was awarded to-day to Gillespie, Hart & Todd, of Victoria, representing Lloyd's Underwriters and Sedgwick, Collins & Co. Ltd., at a rate of 5 cents per \$100 lower than tenders submitted by other fire insurance firms. The total amount of insurance to be carried will run up to near \$2,000,000, it is said.

Other firms tendering were: A. S. Matthews, of Vancouver, representing the British Crown Assurance Co. and Lowman, Harvey & Preston, of Vancouver, representing the Eagle, Star and British Dominions. Both these firms asked a premium of 40 cents per \$100. The tender for the Victoria firm was 35 cents per \$100.

A third Vancouver firm put in a tender for 40 cents per \$100 to-day, but it could not be considered as tenders closed last Saturday.

**STATEMENT BY
WOOD IN CALGARY**

(Continued from page 1.)

ments of the people of Alberta certainly have great reason to congratulate themselves. May they never turn backward.

Burden.

"The farmers, perhaps unfortunately, will have the burden of responsibility in conducting the affairs of the province, but they want the government of Alberta administered in the most economical and efficient way possible, and to this end they ask the sincerest co-operation and assistance from every elected member who has the best interests of the Province at heart.

To Conduct Business.

"The members who have been elected as representatives of the United Farmers of Alberta have been elected entirely for the purpose of conducting the business of the Province. They will not have to devote their time, talents and energies to the political game, as the voters who elected them will hereafter attend to political affairs themselves. The people are tired of electing representatives merely for the purpose of carrying on political activities and hereafter will expect their elected representatives to confine their activities strictly to the work for which they have been elected.

"The people themselves will operate the political machinery by which they elect their representatives to serve them. In other words, we expect to elect politicians instead of politicians," he concluded.

SUNDAY FUNERALS

Seattle, July 19.—The City Council here yesterday rejected petitions for an ordinance prohibiting Sunday funerals.

FINANCIAL NEWS**TO-DAY'S TRADING IN
WINNIPEG MARKETS**

Winnipeg, July 19.—Trading in futures on the local wheat market was limited to-day, with a rally staged previous to the close, when prices strengthened. The whole situation is critical and rather easily influenced to higher levels. July closed at 131 1/2, during the morning, later reaching a high of 132 1/2. October declined to a low of 147 1/2 and came back to 151 1/2. The close was 1/2 to 1 1/2 higher. Coarse grains also stiffened during the last hour, with wheat showing a large advance at 5 1/2 to 6 cents over yesterday's close.

There was a moderate domestic demand for cash wheat, but the offerings, which were fairly liberal, were not sufficient to fill the demand. Premiums were unchanged. Offerings of coarse grains were liberal with small demand.

Wheat	Open	High	Low	Close
July	131 1/2	132 1/2	131 1/2	132 1/2
Oct.	147 1/2	151 1/2	147 1/2	151 1/2

**CHICAGO GRAINS
CLOSE FIRM TO-DAY**

(By Burdick Brothers, Ltd.)
Chicago, July 19.—The grain market strengthened to-day on buying by several strong commission houses with Eastern connections. A net gain of practically two cents registered in wheat in consequence. Country offerings of wheat arriving were light and cash markets firm throughout the day. No special news.

**SPASMODIC DAY
IN WALL STREET**

(By Burdick Brothers, Ltd.)
New York, July 19.—The stock market had periods of alternate weakness and strength to-day, final figures showing in some departments slight gains for the day. The undertone was firm during the last hour and indications pointed to a solid condition in many issues. There was no special news out on the railroad stocks.

Earnings reported for May were quite favorable, and June and July are expected to show up even better. Freer movement of crops is expected to improve to a good degree earnings statements of the principal lines.
